

INSTRUCTIONS

IP68 CONNECTORS

CON.007 – IP68 Connector 3 Pole

CON.004 – IP 68 Connector with plug socket

INSTALLATION

- Thread the electrical cable through the nuts and grommets on both sides (fig. 1)
- Connect the cable to the 3 poles (Fig. 2)
Green/Yellow → Earth
Brown/Red → Live (L)
Blue/Black → Neutral (N)
- Tighten all the nuts accordingly ensuring water tightness. (Fig. 3)

IMPORTANT NOTE: In order to ensure the IP68 rating it is important that a **H07RN-F** rated cable is used. Utilizing the incorrect cable will void warranty.
