

### How To Measure Your Kitchen or Bath For New Cabinets

Accurate Measurements of your kitchen, bath, or laundry space are important in designing your new cabinets. Please follow the steps listed in this kitchen and bath planner and attach the information to your design form, fax to 321-205-9798, or email to Designs@RTADirect.com

#### **Floor Plan**

You will need to carefully configure the exact dimensions of your room. Your completed floor plan should resemble the diagram below. Be sure to show exact locations of doors, windows, hood vents, exhaust, gas lines, water line, drain line, outlets, switches, light fixtures, and heat vents.

#### NOTE: ALWAYS DOUBLE CHECK MEASUREMENTS.

## How To Measure Your Kitchen & Bath For New Cabinets

Using a tape measure and graph paper, measure your room using the following steps.

#### **Horizontal Measurement**

- 1. Measure from wall to wall at 36" height
- 2. Measure from corner to window or door opening.
- 3. Measure across opening from trim edge to trim edge.
- 4. Measure from edge of trim to far wall. Compare sum of #2, #3, and #4 measurements to step #1.
- 5. Mark exact location of water, drain, gas lines and electrical outlets and switches on drawing.
- 6. Measure from wall to wall above window and compare to #1.

#### **Vertical Measurement**

- 7. Measure from floor to window sill.
- 8. Measure from window sill to top of window.
- 9. Measure from top of window to ceiling.
- 10. Measure from floor to ceiling Compare to sum of #7, #8, and #9.

# Each large square represents 1 square ft and the small squares represents 3"
