## **Old and New Memories Meet in the WhisperGLIDE Swing!**

“I encourage facilities who have residents who are demented or in pain to try the *WhisperGLIDE*, as it is so **relaxing** that it helped soothe the severe pain I was experiencing and witnessing the residents with dementia use it, **I saw a calmness come over them while swinging**. Many would sing or hum while swinging, however, 99% of them would smile!”

--Sherrie Dornberger, RNC, CDONA, GDCN, CDP, FACDONA  
NADONA/LTC Executive Director, Ohio

“To have resident-centered care in the continuum of care you must look at the person holistically. The *WhisperGLIDE* assists by both **lowering blood pressure and anxiety** and also in the psychosocial, spiritual and environmental areas. The swing **improves clinical outcomes and the quality of life** of our residents.”

--Angel McGarrity-Davis, RNC, CDONA, NHA  
NADONA's Master Certification Trainer

Model 601, easily adjusts to fit almost ALL wheelchairs!  
Wheelchair Accessible model for Mid-Stage to Late-Stage Dementia.

“Staff members often use the swing’s restful motion to **calm agitated residents**. The only ‘problem’ we have encountered with this swing is that residents do not want to get off and come back inside!”

--Jackie Terpstra, Administrator, Rest Haven – West, Illinois

“In my professional opinion, **every dementia care facility should have at least one wheelchair accessible WhisperGLIDE swing!**”

-- Thomas A. Wiskow, President/CEO  
The Wellstead of Rogers, Minnesota  
(Owner of six *WhisperGLIDE* Swings.)

“The swing is an **incredible tool to lessen anxiety** for our dementia specific residents and has offered a common ground to **facilitate comfortable visits** for family members of all ages. We have observed teenagers **interacting easily with family members** whom they were reluctant to visit.”

--Sharon Giebels, Director of Research and Education  
Gulf Coast Village, Florida

## Swing Owners Love the *WhisperGLIDE!*

*A proven, time tested product that delivers incredible gratification to those who use them.*

“The swing **improves clinical outcomes** and **quality of life.**”

– Angel McGarrity-Davis, RNC,  
CDONA, NHA, Clearwater, Florida

“I call it **Serenity in Motion** and I wish they had it in more facilities I visit.”

-- Roni Santone, a companion aide, Human Resources Center of Carbon County, Jim Thorpe, Pennsylvania

“The **23 WhisperGLIDE swings** we ordered over several years work extremely well in meeting our clients needs.”

-- Max Cupp, Director of Environmental Services  
Glenwood Resource Center, Glenwood, Iowa

“We have several swings. **It warms my heart** when I see multiple generations of a family on a swing with one of our residents. **Everyone has a smile**, feeling happy and satisfied because there is something for people of all ages. **Young and old can safely enjoy the swing** as they enjoy each other’s company.”

-- Pat J. Vincent, CEO,  
Three Links Care Center, Northfield, Minnesota

“Our *WhisperGLIDE* swings create **an immediate and positive impact** on the frequency and quality of interaction between the able-bodied and those mobility impaired.”

-- Michael E. Crawford, Ph.D., Monroe-Meyer Institute  
University of Nebraska Medical Center, Nebraska

“The swing is both **fun and relaxing** for every age!”

– Activity Director,  
Brethren's Home, Greenville, Ohio

“Your product **rates as one of the very best** we have ever purchased. The **quality** of the welding, machine work and ease of **fit of the components** are **most impressive**. We have tried virtually every other wheelchair swing on the market and have been disappointed in all of them save the *WhisperGLIDE.*”

-- Dr. Michael E. Crawford, Re.D., CTRS  
Director, Recreational Therapy Munroe-Meyer Institute  
University of Nebraska Medical Center, Nebraska

### Safety Considerations

- The simple dual lockup feature prevents movement of swing during entry and exit.
- Safety Information and Warranty labels on the swing give specific directions for secure use of the swing.
