FAQ's

Why do I have to place an order to see my artwork? It is necessary to have an order number assigned and linked with the artwork and it prevents further delay. Rest assured, we will not imprint anything without your approval.

What if I don't like the artwork proof? Just let us know what you'd like to change or add and we'll do our best to make those changes.

When will I receive my imprinted order? Once we get your approval of the artwork it is sent out to be made into a die cast plate, which takes about 2-3 business days. When we receive it back, it takes priority with our imprinting department. Each case is individual depending on the complexity of the artwork and when we get your approval. The overall process is usually about 3-4 weeks.

Why do I need to approve it? You know your information better than we do. We ask that you check for spelling, numbers, and make sure you're happy with the overall look.

Do you charge a fee per print on each case? No, our imprinting is FREE in silver foil. However, we do offer gold and black for an additional fee. Silver is always free and stands out the best on all colors.

Can I do multiple color imprinting? No, our imprint is only one color.

Are there any setup fees with imprinting? Yes, we have the following one-time fees:

New Customer Imprinting Plate Text Only: Free

New Customer Imprinting Plate w/ Logo: One time \$65 fee

Replacement Plate Text Only: One time \$35

Replacement Plate w/ Logo: One time \$65 fee
