

BIBIANA VIDAL CURELL

ARTIST CV

1970s

Bibiana Vidal Curell was born in Argentina, moving to Belgium with her family as a teenager. After graduating from High School in Brussels, she traveled across Europe (Italy, Luxembourg, France, Germany, Holland, England, Spain, Portugal, Austria and Switzerland). It was during these years that painting evolved into the great passion for Bibiana that it is today.

1980s

Vidal Curell obtained her University Degree in Sociology, while living as a nun, and began working in social work. She participated in several prominent artistic workshops in Buenos Aires.

1990s

Bibiana found herself working in Social Services and living in different provinces. This afforded her the opportunity to sketch and paint a variety of plein air rural scenes and landscapes. During this time she continued to travel to Italy, Greece, Israel and the Republic of Turkey.

2000s

In her search for painting subjects, Bibiana went to Belgium and Russia, studying Art History and the Russian masters. This became the seminal moment in Bibiana's life - she decided to become a full-time artist. The spark that she had nurtured for so long burst into a roaring fire.

In 2000 Bibiana had her first solo exhibition in a professional gallery and received her first recognition as a professional artist.

In 2002 she visited New York, consuming the masterworks in the Metropolitan and Guggenheim Museums, and the Frick Collection.

In 2006 Bibiana left Argentina and Canada became her home.

Her paintings, primarily oil on canvas, have enjoyed exposure in solo and group shows and can be found in local, national, and international collections.
