

## DÉBORA CARDACI

### ARTIST PROCESS

In the process of becoming a professional painter and sculptor, Debora Cardaci has spent countless hours studying with world class artists in Argentina, Europe, and America. Although Argentinean by birth with Italian roots, American by childhood upbringing before returning to Argentina, and Canadian by choice, Cardaci considers herself to be a citizen of the world. As is her art. She has been, and continues to be, nurtured by world wide masters – ancient and new. She has mastered classical techniques across multiple genres and enjoys them all. Such devotion to mastering technique informs her ability to create in multiple mediums and styles. Cardaci's art is in many ways eclectic and multicultural - in constant flow and movement - and always in search of challenge and discovery.
