

## KATHARINE BRUCE

### ARTIST PROCESS

Bruce's approach to her painting is a spontaneous channeling of energies onto her canvases. She interprets these explorations through her mastery of mixed media skills which includes traditional ceramics, metal sculpture, handmade papermaking, drawing and painting on canvas or other surfaces that invite her artistic sensibilities.

In her painting she moves quickly and effortlessly without any perceived effort laying down layers of colour in oil, acrylic, or watercolour, drawing in lines, stamping, swiping, printing and frequently incorporating collage to enhance her creation.

Music and meditation have played important roles in her work. Keeping her hands dirty is equally essential.
