RING SIZE GUIDE

How To Measure Your Ring Size

This guide is to be used with an existing ring to find out your ring size. For best accuracy, use a ring with a similar band width to the style you want to buy.

Step 1

Print this document out to 100% - ensure that the scaling is set to 'none' on the printing dialogue box. Once printed check the printed size is 100% by measuring the line below which should be exactly 4cm.

4cm

Step 2

Place your ring on the chart below and match the inside edge of the ring to the circle nearest in size.

Step 3

The letter that fits best within the circle, is your ring size. If the ring falls somewhere between two sizes you should always opt for the larger size.
