*Hello*

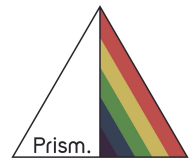

Prism Water Pipes was created to accomplish a few simple, but important goals. To modify the water pipe by design to not only change up the game, but to eliminate issues based around cleanliness, glass replacement, and to open up a whole world of opportunities around modifications, modularity, and customization.

In this ever-changing world, nobody wants to be stuck with just one option. Convenience is key, and your water pipe should be as unique as you are.

*The Prism Team*
