

TABLET FIRMWARE INSTRUCTIONS

FOLLOW THESE INSTRUCTIONS TO UPDATE YOUR CM-7000 SERIES TABLET:

Step 1.

Using the email provided by [CO2Meter](https://www.CO2Meter.com), click on the "[download the file](#)" button to download the CM-7000 series firmware file.

Step 2.

Once downloaded, Plug an empty flash drive into the computer.

Step 3.

Go to where you saved the file, named '[v7-multidrop.apk](#)' and move it to the flash drive. ***DO NOT RENAME THE FILE***

Step 4.

***WARNING!** Please ensure this file name displays EXACTLY: "[v7-multidrop.apk](#)".

Step 5.

Next, safely remove/eject the flash drive from your computer.

Step 6.

Plug the flash drive into the bottom of the tablet in the USB port. The update should begin automatically after a couple of seconds.

Step 7.

Wait for the update to finish installing (this install should not take more than 1 minute).

Step 8.

You will see an alert pop up that says "Unfortunately, Multidrop has stopped." [[This is supposed to happen](#)]. Press 'OK' to finish.

Step 9.

On the tablet screen wait for the firmware to finish updating and press the '[settings](#)' gear in the top right corner.

Step 10.

Scroll all the way to the bottom of the screen and it should read "[Version v2.2.23](#)"
This means your tablet has been updated!

PLEASE NOTE

FOR PROPER UPDATE YOU MUST FOLLOW
BOTH PAGE 1 AND 2 INSTRUCTIONS.

SENSOR FIRMWARE INSTRUCTIONS

FOLLOW THESE INSTRUCTIONS TO UPDATE YOUR CM-7000 SERIES SENSORS:

***Please Note:** Depending upon your CM-7000 series configuration, you will need to repeat steps 1-6 for EACH sensor*

Step 1.

From the home page of the CM-7005 tablet, press on any of the "sensor circles" to go to the sensor detail page.

Step 2.

Press on the lock icon in the top right corner and enter the password: 'co2meter' to unlock the sensor settings.

(The settings will remain unlocked for 5 min)

Step 3.

Press the 'UPDATE SENSOR' button.

Step 4.

A prompt will come up asking if you are sure you would like to soft reset your sensor.

Step 5.

Press "YES".

Step 6.

Press the '**DONE**' button to go back to the home page.

Step 7.

To verify the update was successful: go into the same "sensor circle" and look to see that the version number (located above the sensor name) has changed to v1.1.7.

Congratulations!

This means your sensor(s) and tablet have all been updated!
