

REMOTE CO₂ STORAGE SAFETY 3 ALARM STROBE LIGHTS

Keeping You On High Alert

These strobes provide a bright, flashing indicator for any of our CO₂ or Oxygen Storage Safety Alarms. These 100 cd strobes clearly indicate the alarm level to anyone in the room.

One strobe connects to the sensor display and one to the remote display via an Ethernet cable (included). No additional wiring is required. Strobes flash when Alarm 1, 2 or 3 is triggered. Does not require an additional power source.

Features

- Controlled by the RAD unit
- Input voltage: 6 to 12VDC
- Heavy duty 18-gauge leads
- Clean, Modern Mounting Exterior

Works With

- **RAD-0102-6** | Remote CO₂ Storage Safety 3 Alarm Remote
