

INDUSTRIAL GAS SAFETY ALARM STROBE WARNING LIGHT

Your Industrial Guardian: Keeping You Alert from Potential Gas Hazards

This strobe provides high-visibility and audible alarm designed to provide clear and immediate alerts in hazardous gas environments. Engineered for industrial safety, this robust warning light integrates seamlessly with our industrial fixed gas detection systems, ensuring compliance with safety regulations while enhancing workplace protection. With a powerful LED strobe illumination and loud alarm signal, it effectively warns personnel in industrial gas, cold storage, pharma and other critical gas applications.

Features

- Controlled by the MSC2, PX2, or DGC-06 Devices
- Input voltage: 10-60 VDC
- Meets Code Compliance and Gas Standards
- Clean, Modern Mounting Exterior

Works With

- **MSC2** | Fixed Multi-Gas Detector Series
- **PX2** | Combustible Fixed Gas Detector Series
- **DGC-06** | Digital Multi-Gas Controller System

Compliance

- **NFPA 170:** Standard for Fire Safety and Emergency Symbols
- **NFPA 704:** Standard System for the Identification of the Hazards of Materials for Emergency Response
- **IFC 5307.3.2:** Gas Detection System
- **NBIC Part 1, Supplement 3:** Gas Detection Alarms

Applications

**Restaurant
& Beverage**

**Cold Storage
& Cryogenics**

**Laboratory
& Pharma**

**Industrial
Safety**

TECHNICAL DATA

INDUSTRIAL GAS SAFETY ALARM STROBE WARNING LIGHT

Electrical and Mechanical Specifications

Power Supply	10-60 VDC
Power Consumption	Max. 35 mA at 24 VDC
Humidity	15-95% RH non-condensing
Working Temperature	-25 °C to +70 °C
Pressure Range	Atmospheric $\pm 10\%$
Enclosure Material	Base ABS, lens PC
Protection Class	IP54
Mounting	Wall and Ceiling Installation
Cable Entry	Ca. 12mm diameter
Wire Connection	Screw-type terminals, min. 0.28 mm ² , max. 2.5 mm ²
Weight	0.33 lbs.
Dimensions (D x H)	3.66 x 3.66in
