SMARTMOUNT **XT**™
Wall Mounts

SMARTMOUNT**XT**™
Wall Mounts

The SmartMountXT™ series from Peerless-AV® offers a range of versatile and easy to install mounting solutions, packed with clever features designed to enhance and simplify any professional AV installation.

The SmartMountXT line is a complete AV wall mounting solution, bringing the display closer to the wall, saving you installation time, and adding value to the end-user experience.

This stunning line of mounts, plus accessories, delivers first-class features, such as One-Touch™ tilt, post-installation adjustments, enhanced security options, as well as compatibility with a complete line of accessories that make setting up the perfect AV system an effortless task.

Key Features and Benefits

Open Wall Plate Design

SmartMountXT's thin, open wall plate design gives greater flexibility for cable and power cord management options behind the display.

Reduced Profile

The depth of the SmartMountXT brings the display closer to the wall for an almost invisible installation.

Security Versions

Where an installation requires added security and theft deterrence, locking versions supplied with keyed-alike padlocks are available.

INTEGRATED PARTNER PROGRAM

Your ticket to exclusive First Class Service! The Peerless-AV® Integrated Partner Program rewards reseller sales representatives with great benefits and elite privileges that recognize your value to our organization. Partners are first to receive new product announcements, access to exclusive product lines, priority contact with industry-leading customer service, technical support and engineering services, all delivered in a password-protected website. The features and benefits of the program ensure you are well informed, better educated, and totally dialed-in to Peerless-AV. Contact your Peerless-AV representative for more information on joining the Program.

Post-Installation Height Adjustment

Every model features ±0.5" of vertical micro-adjustment, enabling display height and roll to be modified by turning a single screw.

One-Touch™ Tilt

STX and SAX models offer +15/-5° tilt adjustment, requiring no tools, friction hinge or knob. IncreLok™ tilt lock delivers precise display alignment for multi-display installations.

Internal Cable Management

SAX models route cables through the arms of the mount, preventing cords becoming tangled and maintaining a clean and tidy appearance.

SMARTMOUNTXT™
Flat & Tilt Wall Mounts

Whether you need a low-profile design or tilting options that allow you to set the angle for the best possible view of the display, the SmartMountXT™ flat and tilt wall mounts offer the perfect solution for any application. Optimum display placement can be achieved with quick, simple horizontal and vertical adjustments. Sleek, open wall plate designs offers flexibility in wall positioning and cable routing options.

SMARTMOUNT**XT**™

Articulating Wall Mounts

Brilliant in their remarkable form and function, the SmartMountXT™ series of articulating mounts allow for unlimited placement options, underscored by full display extension and swivel. Installation fine-tuning is a breeze with advanced features for post-installation height adjustment, roll and horizontal shift. Fully incorporated cable management offers a clean, well-protected and organized solution for hiding unsightly cable mess. Complete the installation with an optional wall plate knockout for in-wall cable routing and power.
