FRIENDLY&FLEXIBLE - SHEEP

PASTEURIZED - VEGETARIAN RENNIN - 10 MOS

This month's "bah" cheese is a sheep's milk gouda from **Holland's Cheeseland**. Studded with the little crunchy crystals, its firm bite soon dissolves into buttery nuttiness, butterscotchy sweetness, and oh such loveliness.

@FOREVERCHEESE

Our "mah" cheese is imported by **Mitica** from **Spain's Canary Islands**, where a family-run dairy uses local goat's milk for this unique delight. It's smoked over beechwood, melding mild smoke with milkiness.

@SOMERDALECHEESE

Somerdale in **England** starts with a Welsh-style cheddar and mixes in shallots and fresh chives, giving it its verdant allium-green color. It's dense, creamy, and a little tangy, perfect for grating, slicing, and snacking.

@FOREVERCHEESECO

This popular Spanish snack imported from **Spain** by **Mitica** is about to be your favorite snack, too. It's crunchy, salty, and savory—in short, just what you want it to be.

OTHER USES

Use as a garnish for soup (or pozole!) to add some texture.

red pepper relish

@FOURTHCREEKFOOD

Fourth Creek from **New Jersey** makes a relish just like mom used to make—literally! It's based off the recipe from founder Andy Schiavetti's mom, who would serve it to friends and family until it gathered a cult following that now includes Martha Stewart. You're about to find out why.

OTHER USES

Make like Martha and put it on a (veggie) burger.

*nutty doesn't mean it contains nuts! This box is nut-free.
