

MELINDA MARIA
RING SIZING GUIDE

Melinda wants to make sure that your rings fit correctly, so if you are not sure what your ring size is, you can use one of these methods to figure it out.

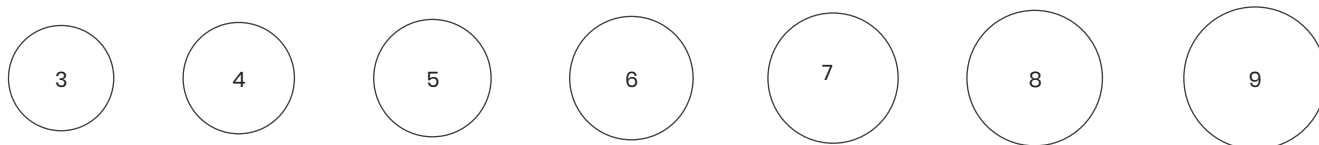

METHOD 1:

Carefully cut out the paper ring sizer below, and add a slit where its marked for the ruler to slide through. Wrap the sizer around your finger with the numbers facing outwards. Pull to tighten the sizer to get a snug fit around your ring finger. Whatever number is at the slit, that is your ring size. Mark where the 2 ends meet.

METHOD 2:

Take one of your rings that fits you well, and place it on the circle below that is the closest in size to your ring. The black circle on the page should be visible inside of your ring. If you are between sizes, we recommend that you pick the next full size down. For example, if you are a 6.5, size down to a 6.

HOW TO PRINT :

When you are in the print dialogue box, make sure that the page is printing out at actual size. Make sure "Fit to page" is not selected.

If you have a ruler, you can check the guide below against your ruler lines to make sure they line up.
