Autoeye Xpert Mobile CCTV Software

Standby RSG Autoeye Xpert series of mobile video solutions have a range of software options available.

These include basic manual download and playback capabilities (iVMS4200) to more sophisticated requirements for live streaming, mapping and mass archiving (iVMS5200). Hosting can be self managed or supplied as part of the Standby RSG online service which includes our FleetMotus Telematics fleet management and monitoring service.

iVMS4200 UP TO 50 USERS

This software package is supplied free to download with all Autoeye Xpert mobile video recorders. It is compatible with our full range of mobile DVR's and NVR's, and provides functions for data download, storage, search and playback.
