

MEGA-FLASH™

Fx Technology

DASH MOUNT

- Ultra-bright latest generation LEDs
- Wide angle FX optics
- UV stabilised polycarbonate assembly
- 11-30 volt operation
- Low current draw (1 amp on 12v)
- Single or dual colour model
- Cigarette plug or permanent mount
- 10 flash patterns
- IP63 Dust and Water resistant
- EMC/R10 compliant
- ECE R65 Class I amber, Class II Blue
- 2 year warranty
- Manufactured in the United Kingdom

Description

The Redtronic™ Dash Mount is a small, compact and low-cost unit. Primary mounted at the base of the vehicle windscreen to provide an additional front facing warning signal. The Dash Mount is supplied as standard with three suction cups. The flange positioned on the base prevents light reflecting into the vehicle cab reducing the possibility of dazzling the driver or any passengers. The Dash Mount can also be used as a 'deck' mount by positioning it in the rear of the vehicle. When being utilised as a 'deck' mount the flange is normally removed for installation purposes. Available in single or dual colour and normally supplied with a multi-function cigarette plug which provides the user with the option to cycle through various flash patterns. The Dash Mount has a 2 year warranty.

Technical Information

		Single Colour	Dual Colour
Voltage Range (DC)		11-30v	11-30v
Number of LEDs		6	12
LED Power (Watts)		18	36
Light Output (Lumens)		432-670 lm	432-670 lm
Weight (Grams)		420g	420g
'All-on' – Current Draw (12v)	Mega-flash, Single & Hyper	900mA	900mA
	Quad, Triple & Double	700mA	700mA
Approval		EMC	EMC
