

ASSEMBLY INSTRUCTIONS

OZtrail advises to assemble your shelter before use to ensure all parts are present and to become familiar with the assembly of your shelter. Choose a flat level area with no objects that could damage the floor.

Helpful Hint Be careful not to twist or force the frame assembly when unfolding the Bivy Tent. Until you are locking the central roof hub into its final position, it is not necessary at any stage of shelter assembly to apply more than a small force on the frame. If a small force is not sufficient to carry out each described step, then realign the frame and try again.

In severe conditions the shelter should be dismantled.
