

# 12V LED 4M STRIP KIT (GCL-ALK4-D)

## KIT INCLUDES

- 4m LED strip
- 8 amp 12V plug with 5m power cable
- On/off dimmer control switch
- 12 x Velcro™ fasteners

## USE AND SAFETY INSTRUCTIONS

Unpack the kit and identify all components. The spool holder for the LED strip should be kept and used to store the LED strip when not in use.

The LED Strip is designed to mix and match with other OZtrail LED Strip Kits, LED Bar kits and accessories. Please note a maximum total length of 5m of LED Strip and LED Bar is recommended.

Position the LED strip as required ensuring there are no kinks or tight bends. Secure using the Velcro™ fasteners. Check the 12V plug is disconnected from the power source and the on/off dimmer control switch is turned fully in the anti-clockwise direction to the off position. Now connect the power cable and position the on/off dimmer control switch either closest to the 12V plug or closest LED light strip as desired and tighten the connectors fully to ensure a weather-proof seal. Connect the 12V plug into power source and turn the on/off dimmer control switch in the clockwise direction and the light will come on and get brighter as you turn further in the clockwise direction.

To pack away, turn the on/off dimmer control switch fully in the anti-clockwise direction to the off position and disconnect the 12V plug from the power source. Unscrew connectors and remove Velcro™ fasteners. Roll the LED strip onto the original spool holder to ensure protective storage.

Please note: The LED light strip, cables and connectors are weather-proof rated to IP66, however the on/off dimmer control switch and the 12V plug are not weather proof and should be protected from rain and any form of moisture. Always supervise children using this product and disconnect power when not in use.

### CARE INSTRUCTIONS:

Use a damp sponge or cloth to remove marks. Allow to dry thoroughly. Never pack away damp, dirty or wet. Only a qualified electrician can service or repair this item.

### MATERIALS:

Plastic with electronic componentry
