
DATA SHEET

DisplayPort to HDMI 4K HDR Adapter

P/N: 9AD-DP1.4

Date: 2019-01-04

DESCRIPTIONS

Use this DisplayPort to HDMI Adapter to connect your PC / laptop to HDTV or projector with ease. This adapter allows you to show mirror or extend desktop content from your source, with true 4K resolution. It also supports 4K HDR (High Dynamic Range) video quality display with astonishing crystal clear and realistic image (source & display both need to support HDR). Whether playing games, movies, or making a business presentation, you could enjoy vivid image of 4K@60Hz display with your friends, and no more blurry images.
