

## **T50**

This 2-channel class D power amplifier features a mono or stereo speaker output, with support for 4-ohm and 8-ohm speakers. It can deliver 50 watts per channel into 8-ohm loads or 60 watts per channel into 4-ohm loads. Stereo looping outputs allow you to chain amplifiers together to create additional audio zones. Budget-friendly and versatile, it is compatible with dual voltage 110V/220V, can be programmed to work with any TV or control system and you can easily add bass with the sub-out. IR remote and wall-mount brackets are included. Optional AMP-CAN allows amp to easily disappear behind the TV.
