

PRODUCT DATA SHEET

71" Single-Side Vertical Cable Manager

Overview

Cabling systems are the lifelines of IT operations. Improper cable management can result in cable damage and failure that can lead to data transmission errors and performance issues as well as system downtime.

The new enhanced Nitrotel 71 in vertical cable manager have been designed specifically to complement 30" wide Spark Series Enclosures. The 3.15" (80mm) wide units can be specified to mount on the left-hand or right-hand side of the enclosure with the mounting rails positioned centrally. A set of screws and nuts attaches the vertical cable manager to the rail offset brackets.

Features and Benefits

- Single-sided cable managers with closely spaced fingers on equipment side for routing high density cabling.
- Factory installed or easily retrofitted in the field.
- Installation is easy and can be done in minutes using standard hand tools.
- Designed to meet ANSI/TIA/EIA installation guidelines for copper and fiber optic cabling.
- Proper bend radii ensures maximum quality of data transmission.
- Easier access to internal rack components reduces maintenance time and improves safety and serviceability.

Construction

Material	Integrally molded UL 94V-0 plastic.
Color	Black

Dimensions

Information	Height in (mm)	Width in (mm)	Depth in (mm)	Weight kg (Lb)
Product dimensions	71.0 in (1800 mm)	3.15 in (80 mm)	3.15 in (80 mm)	1.55 kg (3.4 lb)
Shipping dimensions	71.6 in (1820 mm)	3.95 in (100 mm)	3.75 in (95 mm)	2.10 kg (4.6 lb)
