

Plaster Painting

1. Use a toothpick to get into tiny spots or to outline an area
2. For a different look use a sponge instead of a brush
3. Use craft glue to stick plasters together or onto a card
4. Gloss paint will give your plaster a shine

Caution – While the paint is wet wash hands and equipment with soapy water.

Suitable clothing should be worn as some staining may occur.

Not to be consumed. Keep caps away from young children.

Supervise all children while doing this activity, recommended for ages 3 and up.

Paint is non toxic, water based, acrylic paint.
