

advanced FLOW engineering Momentum Air Intake Instruction Manual P/N: 50-73005-1 / 51-73005-1

Make: FORD Model: F-250/350/450/550 Year: 2011-2016 Engine: V8-6.7L (td) POWER STROKE

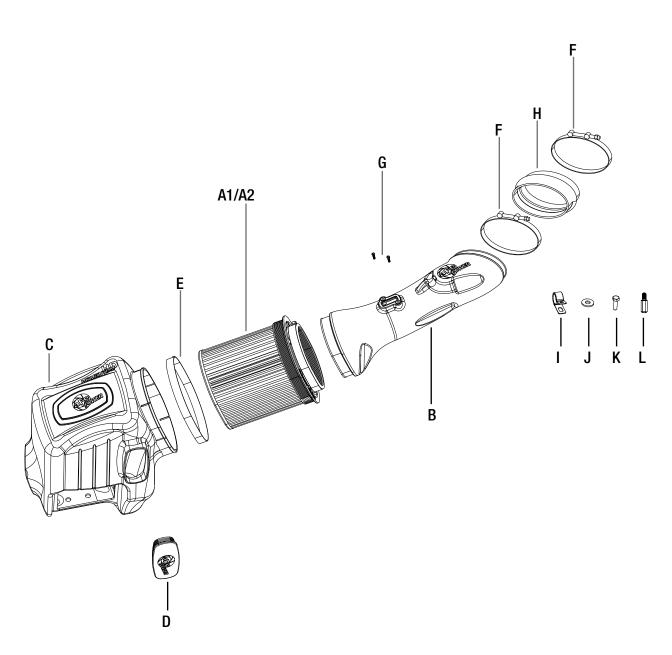

- Please read the entire instruction manual before proceeding.
- Ensure all components listed are present.
- If you are missing any of the components, call technical support at 951-493-7100 or e-mail tech@afepower.com.
- Ensure you have all necessary tools before proceeding.
- Do not attempt to work on your vehicle when the engine is hot.
- Disconnect both the negative battery terminal before proceeding.
- Retain factory parts for future use.

| Label     | Qty. | Description             | Part Number           |
|-----------|------|-------------------------|-----------------------|
| <u>A1</u> | 1    | Air Filter (Pro DRY S)  | 21-91061 (51-73005-1) |
| <u>A2</u> | 1    | Air Filter (Pro 10R)    | 20-91061 (50-73005-1) |
| В         | 1    | Tube                    | 05-73005B1            |
| <u>C</u>  | 1    | Housing                 | 05-73005B2            |
| D         | 1    | Plug, Urethane          | 05-01202              |
| E         | 1    | Clamp, T-Bolt (8-5/16") | 03-50267              |
| F         | 2    | Clamp, T-Bolt (5")      | 03-50261              |
| G         | 2    | Screw, M4               | 03-50034              |
| <u>H</u>  | 1    | Coupling, Silicone Hump | 05-01204              |
| I         | 1    | Fixing Clamp            | 03-50234              |
| J         | 1    | Flat Washer             | 03-50070              |
| K         | 1    | Hex Screw               | 03-50057              |
| L         | 1    | T20 Torx Bit            | 03-50066              |

Installation will require the following tools: 8mm Nut driver, 10mm Nut driver and 1/4" driver.

## Refer to Figure A for step 1

Step 1: Take off the (2) 8mm screws securing the OE intake tube and filter box and loosen the band clamps.

## Refer to Figure B for steps 2-3

Step 2: Disconnect the wire harness clip from the filter housing and pull the red tab out on the flow sensor connector, then press the tab and pull off the sensor plug. Remove the MAF sensor from the tube with the provided T-20 Torx bit.

Step 3: Pull out the air box in an upward motion.

## Refer to Figure C for step 4

Step 4: Slip all the hoses out of the way on the OE intake tube, loosen the clamps and remove the tube.

## Refer to Figure D for steps 5-6

Step 5: Take off the factory mounting grommet from the factory airbox and install it on the Momentum HD airbox.

Step 6: Slide filter into housing and install furnished T-bolt clamps. Tighten only the larger T-bolt clamp.

Refer to Figure E for step 7

Step 7: Remove rubber inlet gasket from the factory airbox and install it on the Momentum HD airbox.

Refer to Figure F for step 8

Step 8: Install the Momentum HD housing assembly into the truck by pushing it into the factory grommet.

## Refer to Figure G for steps 9-11

- Step 9: Remove the filter minder and grommet 1 from the factory airbox and install them on the Momentum HD tube.
- Step 10: Install the Mass Air Flow sensor (2) removed at step 2 on the Momentum HD tube using furnished small hex screws.
- Step 11: Slide the silicone coupling (H) and T-bolt clamps (G) onto the small end of the tube. Do not tighten clamps at this time.

## Refer to Figure H for steps 12-14

- Step 12: Install Momentum HD tube by first sliding the coupling over the turbo inlet. Connect the other end to the air filter.
- Step 13: Tighten all clamps.
- Step 14: Snap the AC line into tube and secure factory hose with the fixing clamp  $\widehat{\ \ \ }$  , M6 screw  $\widehat{\ \ \ }$  and washer  $\widehat{\ \ \ \ }$  .

Refer to Figure I for steps 15-17
Step 15: Re-install factory screw removed in step 1 next to battery ③ to secure Momentum HD airbox.
Step 16: Re-connect the MAF sensor ④. Route the wire harness as shown and secure it to the vehicle

Step 17: Tighten all clamps and re-attach both negative battery terminals. Your installation is now completed.

Use the furnished plug (B) to close off the front auxiliary air inlet to completely seal the airbox.

NOTE: Retighten all connections after approximately 100-200 miles. Place enclosed CARB EO sticker on or near the device on a smooth/clean surface. EO identification label is required to pass the smog test inspection.

# **Warranty**

#### **General Terms:**

- aFe warrants their products to be free from manufacturer's defects due to workmanship and material.
- This warranty applies only to the original purchaser of the product and is non-transferrable.
- Proof of purchase of the aFe product is required for all warranty claims.
- Warranty is valid provided aFe instructions for installation and/or cleaning were properly followed.
- Proper maintenance with regular inspections of product is required to insure warranty coverage.
- Damage due to improper installation, abuse, unauthorized repair or alteration is not warranted.
- Incidental or consequential damages or cost, including installation and removal of part, incurred due to failure of aFe product is not covered under this warranty.
- All warranty is limited to the repair and/or replacement of the aFe part. To request Return Goods Authorization ("RGA"), email RGA@afepower.com or call (951)493-7100. Upon receipt of the RGA, you must return the product to the address provided in the RGA, freight prepaid and accompanied with a dated proof of purchase and the RGA. Upon receipt of the defective product and upon verification of proof of purchase, aFe will either repair or replace the defective product within a reasonable time, not to exceed thirty days.

| Product Category                 | P/N Prefix             | Warranty duration   |
|----------------------------------|------------------------|---------------------|
| Direct OE Replacement Filters    | 10, 11, 30, 31, 71, 73 | Life of the vehicle |
| Racing Filters                   | 18                     | 1 year              |
| Universal                        | 21, 24, 72             | 2 years             |
| Air Intake Systems               | 50, 51, 54, 55, 75     | 2 years             |
| Exhaust Systems                  | 49                     | 2 years             |
| Intercoolers & Intercooler Tubes | 46-2                   | 2 years             |
