

WATCH BAND SIZE GUIDE

Don't know your watch band size? No worries!
Follow these 4 easy steps to get your measurements

XS	5in-5.4in
S	5.5in-6in
M	6.1in-6.6in
L	6.7in-7.2in
XL	7.3 in-7.8in

*This Size Chart is accurate to the best of our ability. Please use your own discretion based on your preferences for it may not work the same for everyone.

**Some fabric types wear differently than others. For best fit, read the product descriptions for our sizing advice on the band you like.*

**Your watch band should have a snug fit around the wrist but has stretch like a scrunchie.*

1. Print out and cut the ruler provided below. (**Make Sure you print at 100% scale in your printer settings and compare with a table ruler for best accuracy**).
2. Measure around the the smallest part of your wrist/where your watch sits naturally. (you do not need to account for the Apple Watch face size, it is already configured into our size chart)
3. Compare your results with the sizing chart. (if you are in between sizes, size up or down based on your personal preference).
4. Order your cute watch band!

*To ensure this ruler is accurate, please compare ruler below with a physical ruler to get the most accurate sizing. Please print page at 100% scale in your printer settings.
