

Congratulations on your purchase of the **Walking On Water Jesus** floating pool chlorinator! We welcome you to the flock of those who love **WOWJesus!**

A couple of things you will need to know: **WOWJesus** needs to be “baptized” to enable Him to float properly. Follow these steps to allow Him to rightfully walk across your pool:

1. Fill His basket with the desired number of chlorine tabs. (He holds up to 4 standard tabs.)
2. Screw the Jesus figurine clockwise into the top of the base.
3. Turn the entire unit upside down and completely submerge the upside-down unit into your pool. You will see bubbles ascending to your pool’s surface (then upward to heaven, of course).
4. Holding the unit completely under water, tilt the unit in all different directions until you no longer see any bubbles. Now, His baptism is complete!
5. Turn Him over and slowly let Him ascend to the water’s surface. He should float smoothly. (If He lists to one side, turn Him back over and jiggle Him around a few more times to get ALL the bubbles out.)
6. Keep in mind that each time you remove **WOWJesus** from your pool, the water will run out and He will need to be re-baptized to ensure smooth floating.

If you have any problems, please visit our website at www.thewowjesus.com to view a video on the baptismal process. If you cannot find your answer there, please call 1-866-843-9695 or email us at info@thewowjesus.com. We’ll get back to you as soon as heavenly possible.

NOTE: WOWJesus may begin to lean when the chlorine tabs are running low. This is normal and His way of letting you know it’s time to refill His basket.

WARNING! WOWJesus is not a toy. Keep chlorine and the WOWJesus chlorinator away from children. Please read all chlorine warnings on your chlorine tab packaging.
