

RIVETTO

Barolo DOCG Leon Riserva 10 anni

Celebrazione

GRAPE VARIETAL 100% Nebbiolo. A native Piedmont grape with a late harvest period, recognized for its quality since the ancient Roman epoch. The wine obtained is characterized by extraordinary refinement, exceptional ageing capacity and strong tannin content.

MUNICIPALITY Serralunga d'Alba

IN THE CELLAR After 5 years of aging, Barolo may crown itself with the title of "Reserve". We select our Barolo Riserva from the barrels with the greatest potential for ageing and it is at its best after 15-20 years.

YEAST indigenous

CLARIFICATION gel bentonite

AGEING 40 months in big oak barrels from Slavonia or Hungary

IN-BOTTLE REFINEMENT 80 months

CHARACTERISTICS Special selection of our Barolos that presented a high aptitude for ageing in our in-barrel tastings. A wine that expresses its best over the long term. The extra years of ageing guarantees the greater smoothness of the tannins and an intense bouquet.

SERVING TEMPERATURE 16 °C

PAIRINGS Red meats, lamb, game, aged cheese, everything with truffle.

OUR APPROACH In 2011 we started to think and act organic in the vineyards (officially certified since 2016). In 2015 our evolution continued with the introduction of a Biodynamic approach to the entire property. Key changes to improve the ecosystem include, adding trees and plants in the vineyards, introducing a green garden, and building birdhouses. While we have always sought balance in the vineyards, we now look for it in every part of our environment. For us, that means no chemical weeding, no systemic anti-parasite treatments, and no chemical fertilization. In addition, we plant barley, oats, and clover between the vines to revitalize the soil. To keep soft the soil not to stress the roots of the vines. We use corroboretes to reduce chemical treatments and we even make our own compost. To promote as much biodiversity as possible we practice farming diversification by incorporating other crops. Finally, we always bottle with the energy of the waning moon.
