Bottle shape: Crémant

Tasting notes and food recommendation:

We present our sparkling fresh Cuvée Blanc No.1 - A harmonious combination of yellow fruit of pear and mirabelle, rounded off with a touch of typical brioche notes. The elegant acidity is balanced by a creamy, fine bubbly texture.

Excellent as an aperitif or as a companion to fine canapés, seafood, fresh desserts such as zabaglione and panna cotta with fruit.

About the vintner:

The Freiherr von Gleichenstein winery represents quality, professionalism and passion for almost 400 years. Now in the 11th generation of the family, the wines are still recognised by the distinctive flint minerality of the Kaiserstuhl. If you don't meet Johannes Gleichenstein at the winery, he might be on the Ahlberg or further away at the sea, on the baltic island Sylt. The well-coordinated team, complex top wines and long-term relationships are characteristics of the South Baden culture of the winery. For us impressive enough to add Gleichenstein to our Kolonne Null collection - 2020 with the Cuvée Blanc No.1!
