& PACKAGING**

# ABOUT

Redds are the original red cups in Australia.

Producing a high-quality collection of reusable and disposable, and biodegradable products that are ready for any function or event and conscious of our environmental impact.

From Tumblers to wine cups, this range is available in original red, blue and clear.

Also included in this party range is a series of fun Beer Pong games and a table to play on.

Bring your event to life with Redds.

# TOMKIN<sup>®</sup>

THE MARK OF HOSPITALITY

Tomkin is thrilled to announce we have added Redds to the Tomkin Brand. Redds is an eco-friendly range of disposable cups.

Redds have been producing this party range for nearly a decade.

Their evolving range includes a collection of reusable cups that are dishwasher-safe and sustainable for repeated use.

Suitable for functions or events, this collection is available in original red, blue, and clear and includes a fun Beer Pong range.

## CORE RANGE

### POLYPROPYLENE DOUBLE WALL

Lightweight and impact resistant. Hygienic, durable, odourless and flavourless polypropylene can withstand the rigours of commercial use.

### 100% RECYCLABLE

Our range of recyclable products have been produced to lower our carbon footprint. Embracing our responsibility to make a positive future change, this range minimises its environmental impact.

### BPA FREE

High quality and toxin-free, our carefully created melamine are BPA Free. Durable and sturdy without harmful chemicals, our BPA Free products are completely food safe and odour-free, making them perfect for outdoor and commercial use.

## 100% BIODEGRADABLE

Functional and sustainable, this range of 100% biodegradable products strives to minimize its environmental impact. These items degrade without leaving any toxins behind with the ability to break down and return to nature.

## COMPOSTABLE

Reducing the impact on the environment, our commercially compostable products are suitable for composting in a controlled setting. The multi-step process closely monitors the temperature control and oxygen levels to create high-quality, toxin-free compost.

## FOOD HYGIENE CERTIFIED

Created using sustainably sourced materials, this range has been hygienically certified for food and beverage use. With the highest levels of food safety in mind, this range is safe, responsible and natural.
