

ZING TEAM MEMBER

TENZING has set out to change the way we energise ourselves. One that is good for mind, body and planet. Your role will be to activate this through sampling TENZING Natural Energy and increasing brand awareness, product understanding and sales conversion.

WHAT ARE WE LOOKING FOR IN YOU?

Two key things. Energy and adventure. We are looking for people that are energetic, adventurous, spontaneous and always have a smile on their face. And like the rest of us you should have a love for the outdoors and the environment.

YOUR ROLE:

You will be the face of our brand, telling the story behind TENZING and introducing the product to consumers for the first time. However we are a small team so, although your primary role will be sampling, you will be involved in everything. If we dive into the details of day to day you'll be...

- Telling the public about our brand, product and story - you need to know the details of TENZING inside out
- Sampling at top retailers such as Whole Foods, Tesco and M&S to educate customers about TENZING
- Evaluating your sampling tools and providing feedback to the wider team on how we can improve our sampling and in-store presence
- Understanding how we can reach our target audience in the best way, at the right time and right locations
- A credible and enthusiastic ambassador of our brand, spreading the word and love for TENZING
- Responsible for identifying creative sampling opportunities
- Attending key events and exciting projects

WHAT'S IN IT FOR YOU?

You don't often get the opportunity to be part of one of the fastest growing start-ups. The team behind this brand are some of the best in the business, so you will learn a lot. But we also want to learn from you. Nothing at TENZING is set in it's ways, you have the opportunity to help define and create this brand.

THE IDEAL CANDIDATE:

You have a passion for the food and drinks industry and are interested in sales, marketing, events, the lot! You have to be a driven and positive individual who is able to pick things up quickly and confident enough to tackle tasks on a solo basis. Most importantly? ENERGY.
