

# Amaryllis Bulb Kit Fundraiser

Waxed Amaryllis Bulbs have everything they need to bloom! The wax coating seals in all the nutrients and water required to produce beautiful big Amaryllis flowers. They require NO additional care. In 4-6 weeks the bulb will produce 2-3 stems of 4-5 flowers which last for weeks to be enjoyed through the holiday season. After they've bloomed they will not bloom again and can be discarded.

How the fundraiser works? Your customers choose from the following options:

- Red Blooms and Gold Wax
