

# 2 Pack Trainer Cups - ITEM#80072

## **The Avima 9 oz. Training Cups were designed with your toddlers comfort in mind.**

The soft spout cup comes with an interchangeable silicone DUO-FLO™ nipple for an easy transition from a bottle to a cup. It has comfortable handles that are easy to hold.

The non-spill cup comes with a leak proof valve to allow for drinking with no mess.

**All Avima products are made to the highest safety standards and are free of BPA, PVC, phthalates and polycarbonate.**

## **Instructions for Safe Use and Cleaning:**

- Before using, wash the cups, spouts, nipples, handles and valve in warm soapy water rinse and sterilize.
- Do not insert a brush into the nipple valves, non-spill valve or silicone spout as this may damage the product.
- Only clean the nipple valves by hand in soapy water.
- Make sure all milk deposits are removed from the nipple and spouts before cleaning.
- Do not clean with solvents or harsh chemicals as this could result in damage.

**All Avima cups and their components have been tested to ensure that they can be effectively sterilized in all leading makes of standard steam sterilizers and dishwashers.**

## **WARNINGS:**

- Always supervise your child during feeding and when using this product.
- The non-spill valve is a choking hazard. Keep this and all components not in use out of your child's reach.
- Do not use the nipple as a soother or pacifier.
- Allowing your child to use this product for prolonged periods of time or sleep while drinking liquids, other than water, may cause or contribute to early tooth decay.
- Silicone Nipples and Spouts can wear out, especially when your child has teeth. Before each use, inspect the nipple and spout. Pull the nipple in all directions. If there are any signs of damage or weakness do not use.
- Always check the temperature of the milk or liquid before offering to your child. The outside of the cup will feel cooler than the liquid.
- Do not heat a sealed cup in a microwave oven.
- Do not attempt to enlarge the hole in the nipple or spout, as this will cause tearing.

**Please read these instructions and warnings carefully and keep for future reference.**
