WALLS**

Origin Decorative design, manufacture and supply professional interior finishes. Our products and services include:

FLOORING | WALL PANELS | PAINTS & COATINGS | FINISHING SERVICES

As the decorative company within the Symphony Coatings Group we call upon the experience and technical expertise that exists within the group and the national infrastructure of distribution.

Origin brings together the elements of interior finishing by offering products that are designed to work in harmony. Our manufacturing base offers the ability to create individuality in all aspects of interior and exterior finishing, supported by an excellent range of stock products for projects that demand a shorter lead time.

The business supports professional interior designers and architects, developers, joinery & kitchen companies along with the client based designed residential market. Our products are displayed on line and available from our depot network, along with our project based consultations either face to face or indeed via the telephone or zoom etc.

FLOORS

Stylish, contemporary
and traditional flooring
supplied either finished
or unfinished

FLOORING

WOOD | LAMINATE | DESIGN

Our flooring programme is manufactured in Germany and Europe with many of the collections finished in Britain. Our flooring is styled around the needs of the professional interiors market, where the demands for performance and design flexibility are key.

We provide true scalability due to our partnership manufacturing platform. Offering products from mass production items to handcrafted specials, we are able to offer true individualism to your interior concept.

All our products carry our manufacturer backed warranties giving peace of mind no matter what size of project we are involved in.

THE CONSISTENCY
OF OUR QUALITY IS
GAINED FROM OUR
PARTNERSHIP FACTORY
APPROACH, EACH
FACTORY WITH ITS
OWN SPECIALISATION,
AND ALL FROM A
CONTROLLED EUROPEAN
SUPPLY CHAIN.

FINISHES

Pre-colours, oils
and lacquers
to create stunning
floors and surfaces

PAINTS

PROFESSIONAL RANGES

The Origin paints collection comprises a choice of 120 selected colours that have been designed to work harmoniously with our floors, walls and surfaces.

We offer our full colour range in Matt Emulsion, Satin Eggshell, Trim Paint, Masonry Paint and Lignapaint the specialist wooden building coating.

Divided into colour themes the collection covers both contemporary and traditional palettes and introduces some more daring options along the way.

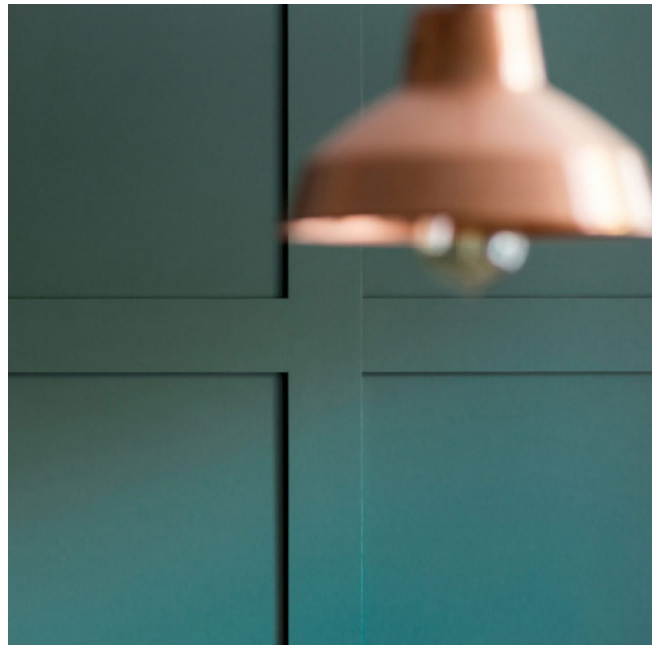

If you cannot find a shade to suit your project then we are able to offer individual tints from either our library or client matches.

OUR PAINTS ARE
MANUFACTURED IN
THE UK AND TINTED AT
OUR IN-HOUSE FACILITY.

OUR FULL COLOUR
MATCHING SERVICE CAN
ALSO OFFER METAL AND
OTHER FINISHES.

WALLS

Paints, wallcoverings
and decorative features
adding interest
to your interior

WALL PANELS

LAMINATE | WOOD VENEER

The Origin wall panel collections are manufactured from High Pressure Laminate and wood veneers bonded to a selection of core materials, mainly moisture resistant HDF.

With over 200 design options available and the ability to offer individual digital print options from only 3 panels.

The product is extremely hard wearing, very easy to maintain and fully washable, making it ideal for use in leisure, education and healthcare environments. Ideal for creating features within the designed residential sector.

The panels are available 12mm or 18mm thick dependent on usage. The products can also be used as surface material for furniture.

USING OUR LAMINATE WALL PANELS IN CONJUNCTION WITH OUR WOOD VENEERED SYSTEM CREATES STUNNING VISUAL IMPACT, AND CAN BE CHANGED TO FRESHEN UP STYLING WHEN REQUIRED.

Ter Hürne (Germany) are our manufacturing partners for flooring creating the base of our oak plank engineered floors that we finish here in Britain. This gives our flooring the features of “engineered in Germany, finished in Britain”, a perfect combination for performance and design flexibility.

Origin is also responsible for the distribution of the Ter Hürne flooring collection throughout the UK, working as an integrated part of their global sales approach.

The collections include engineered wood flooring, design flooring and laminate flooring options.

Rubio Monocoat are our manufacturing partners in oil based wood finishing and maintenance products for wood flooring, wall panels and furniture.

Origin floors are designed around the feature and benefits of the Rubio Finishing System. Although Rubio can be used as a single coat application, the opportunities for creativity increase manifold when used as a 2 or 3 coat finish.

Using pre-colours, pre-ageing, smoking and fuming followed by coloured oils and treatments, adds depth of colour and lustre to the floor.

Maintenance and repair is also enhanced by the use of the Rubio system.

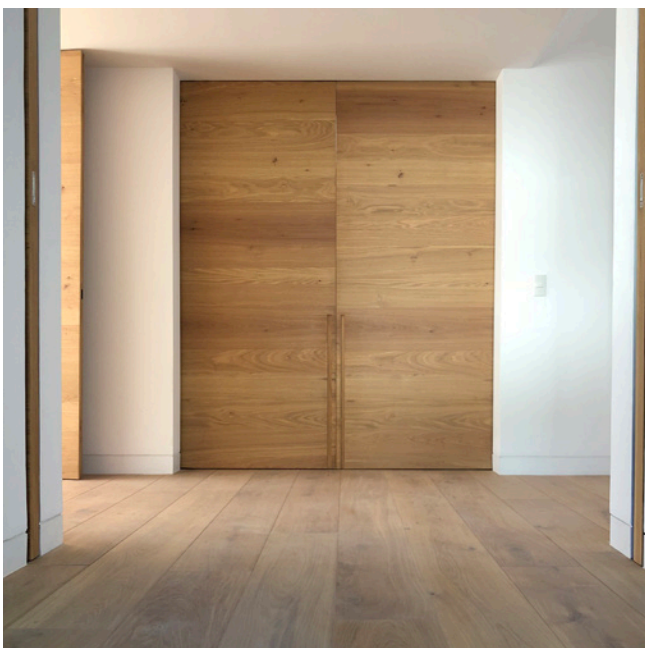

Floornet is our trade network of flooring retailers, contractors and installers. Floornet provides a full service to the industry involved in promoting and installing Origin products.

Offering trade based product training, installation training and on site finishing services.

Floor Gallery is our show space offer to the professional design sector involved in commercial and designed residential fit out.
