

TEQ-Light

Be there even
when you're not!

TEQ-Light, a unique solution comprising multiple sensors in a single device in the shape and functionality of a night light.

Using integrated Altechnology to monitor activity trends and environmental factors TEQ-Light is completely non-invasive and scalable.

Automatic nightlight: no more fumbling for light switches in the night. Use as a flashlight in a power outage.

- ✓ Real-time movement showing activity trends
- ✓ Create voice reminders using family or carers voices
- ✓ Two-way voice calls, call the device via smart phone app
- ✓ Restroom duration and frequency, detect potential issues
- ✓ Confirm resident is active during the day and alert when lack of movement is determined
- ✓ Environment monitoring based on adjustable parameters
- ✓ Air Quality
- ✓ Temperature
- ✓ Humidity
- ✓ Noise Level

Step 1:

Plug in to power outlet

Step 2:

Connect to Wi-Fi

Step 3:

Family/Carers receive notifications when help is needed
