### Use:

Keep your screen cleaning mess contained with Bluewater's new HP-1 high pressure cleaning system. The HP-1 features a 2,500 psi pump, 2 running two-headed rotating spray wands that wash both sides of the mesh at the same time eliminating hand held pressure washers and unnecessary over spray.

### Manufacturers Notes:

- Filtration System Included
- Utility Pump Included (to eject water from filtration unit)
- Self Installation (services available if needed)
- Made and Manufactured in the USA
