

R-2536: Automatic Reclaim Machines

Use:

Bluewater combines the key capabilities needed to get screens cleaned in a unified automated process. Our screen cleaning machines are driven by b-Wave technology, which reclaims screens from start to finish. The innovative designs of our machines minimize human error, lower workplace risks and reduce labor costs.

Features:

- ✓ Constructed of polypropylene
- ✓ Chemical resistant
- ✓ Quick start and auto stop
- ✓ Simple load and unload trays
- ✓ Eliminates excess exposure to solvents
- ✓ Easy to clean
- ✓ End-loading design
- ✓ Noise & mess contained inside the machine
- ✓ Custom machines available

Specifications:

Machine Options	R-2536S	R-2536L
Infeed Options	54.0" or 72.0"	54.0" or 72.0"
Outfeed Options	47.0" or 94.0"	47.0" or 94.0"
Infeed Soak Tank (upgrade)	44.0"	44.0"
Outfeed Booth (upgrade)	48.0"	48.0"

Dimensions	R-2536S	R-2536L
Body Length	120.0"	240.0"
Standard Body Width	24.0"	24.0"
Body Width with Recirc	36.0"	36.0"
Machine Height	72.0"	72.0"
Machine Length (min)	18'6"	28'10"
Maximum Frame Size	25" x 36"	25" x 36"

Specifications	R-2536S	R-2536L
Air @ 6,9 (100 PSI)	8cfm @ 100psi	10cfm @ 100psi
Electrical	208/230V, 3 ph, 55FLA, 50/60Hz	208/230V, 3 ph, 115FLA, 50/60Hz
Water	1x1" NPT Standard Fitting	2x1" NPT Standard Fitting
Drain	3/4" or 1 1/4" NPT Utility Pump or Floor Drain (no size)	
Screens Per Hour	25 per hour - (200 per 8 hr shift)	75 per hour - (600 per 8 hr shift)

Manufacturers Notes:

- ✓ Installed by Bluewater Technician
- ✓ Backed by 24 month parts warranty
- ✓ Made and Manufactured in the USA
