

Knit Me

NIGHT CAP

GLOSSARY

- **kw**: wrap the yarn twice around the needle before completing the knit stitch. On the next round, slip one wrap and let the other fall off the needle, creating an extra large knit stitch.
- **slwyib**: slip one with yarn held to the back of the work.
- **ssk**: slip one knitwise, slip one purlwise, then knit these two stitches together through the back loop.

NOTES

- This hat pattern is available for sizes 1(2) to fit a 22(24)" head circumference. Pick the size closest to your circumference and use the coordinating numbers to work.
- The finished hat should be smaller than your head circumference. This is referred to as "negative ease", and is what helps your hat stay on your head!

WHAT YOU'LL NEED

- 4mm needles, or size required to meet gauge
- 100g DK weight yarn
- darning needle

Gauge:

- 24sts =4" in stockinette

PATTERN

Co 110(120)
