EXCEL Korean Concept Pole System

EXCEL's solution is this modular wardrobe where you can custom build your very own storage space. By picking from the wide range of compartments, you can create your own wardrobe system to accommodate your space limitations. With free installation and minimal fuss, you can easily achieve the ideal wardrobe system.

FLEXIBLE FURNISHINGS

As mentioned previously, the **EXCEL** Lifestyle Pole Systems compose of interchangeable storage designs for your wardrobe and household objects. Not only are the systems adaptable to different kind of storage needs, they can blend easily into almost every important living space-master room, study room and hall-without looking like a sore thumb. The **EXCEL** Lifestyle Pole Systems come in two variations-wall-mounted and ceiling mounted-so that you, the discerning home owner, can choose what is best for your home. Please read the following pages for an in-depth view of the exciting possibilities the **EXCEL** Lifestyle Pole Systems bring.

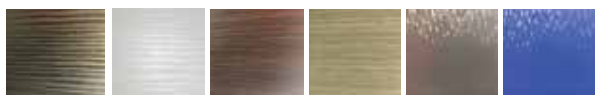

BEDROOM

For displaying your set of apparel, you can use trousers rack and hanging rods with adaptors. The former allow you to drape your pants and jeans neatly while the latter let you suspend your shirts and jackets nicely. Foldable wear like socks, underwear and T-shirts can be placed into drawers. These drawers are equipped with soft-closing technology. If you accidentally use too much force while shutting them, they will close gently regardless of the force exerted. These soft-closing drawers also come with a handle and locker. There are eleven texture schemes for them - Glossy White, Glossy Black, Beech, Oak, Walnut, Black Stripes, White Stripes, Wenge Pearl, Finline Oak, Dark Grey Sapphire and Blue Sapphire.

Glossy White Glossy Black Oak Walnut Beech

Black Stripes White Stripes Wenge Pearl Finline Oak Dark Grey Sapphire Blue Sapphire

HOME ENTERTAINMENT CONSOLE

The third most common configuration of the **EXCEL** Lifestyle Pole Systems is the home entertainment console. For this configuration, you can combine shelves and soft-closing drawers to form a sleek console on which you can place your high definition television, blu-ray player and sound system. You can also use the integrated shelves to decorate your console with sculpture and the ornaments while storing your blu-ray and DVD discs in soft-closing drawers.

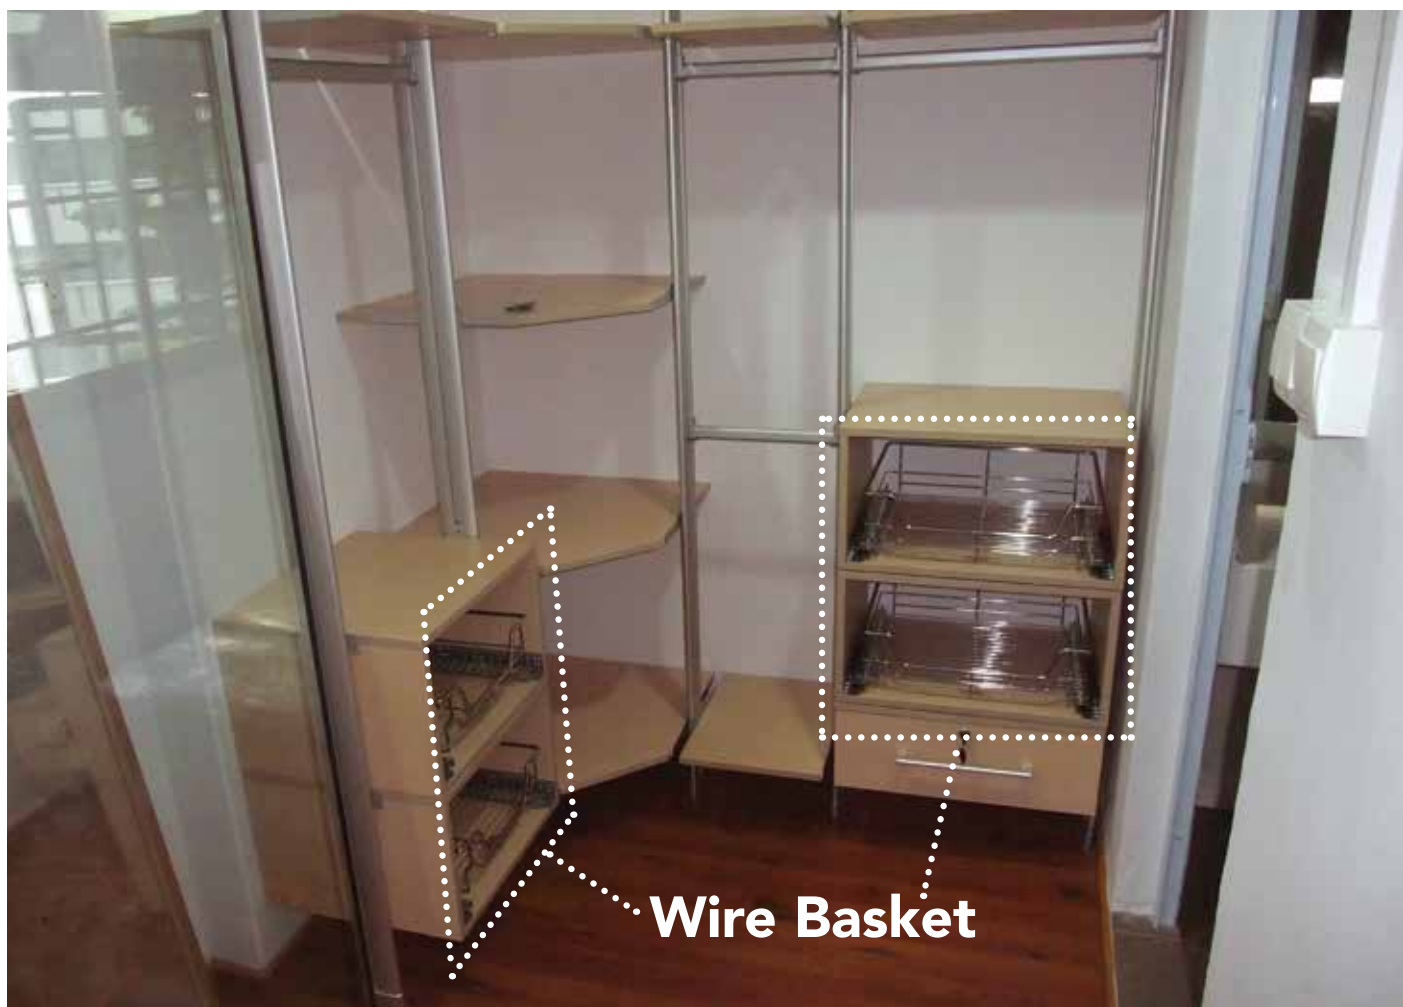

STUDY AREA

The **EXCEL** Lifestyle Pole Systems can be transformed into a study space. Shelves and magazine racks can be used to arrange your encyclopaedia, novels, research documents and lifestyle publications in an orderly discs, chargers and portable hard disk can be placed in soft-closing drawers. To top things off, you can introduce a desk and chair to the study area, thus making it complete.

WIRE BASKET

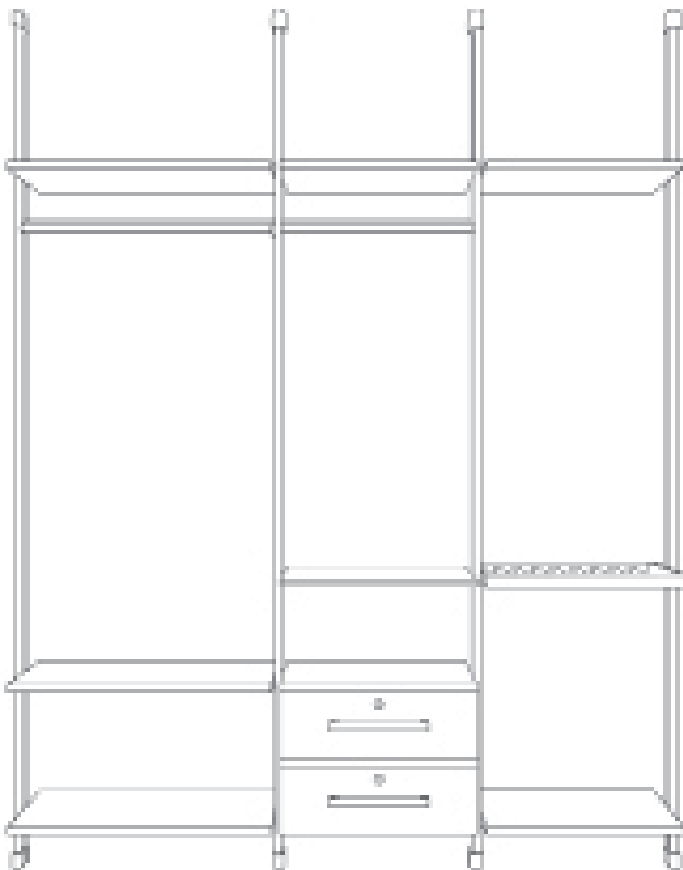

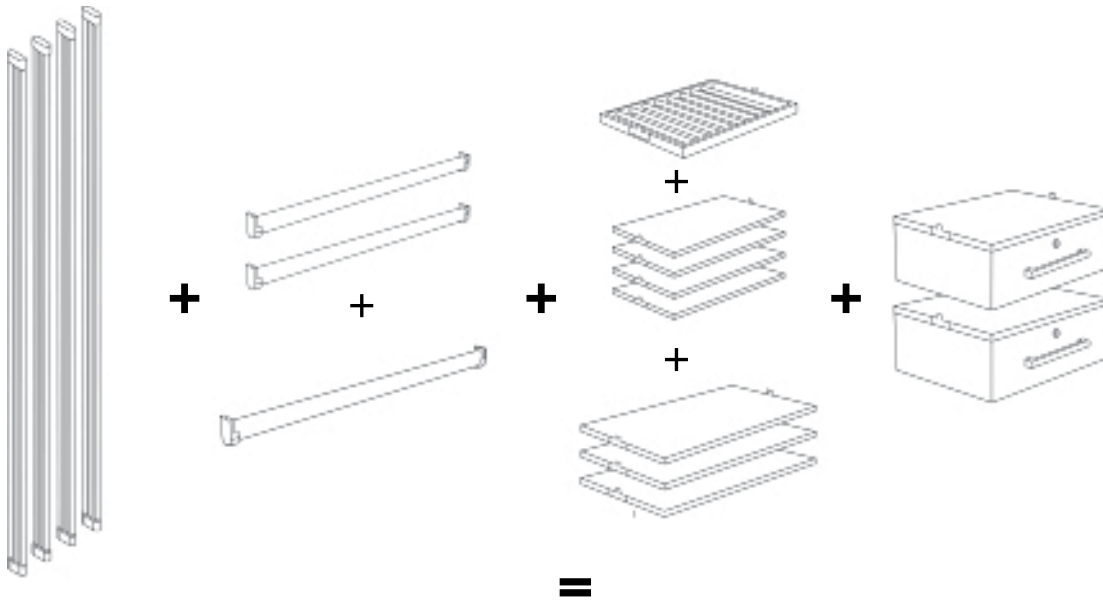

If you prefer a drawer that can let you see its contents without having open it, you can try out the soft-closing pull-out wire basket. It is a specialised drawer without any encasement and is made up of strips of chromed plated metal. The wire basket, aside from its soft-closing feature, enables air to circulate freely and keep your clothes fresh.

3 STEPS

To Attaining The Classy Look*

Incorporating an **EXCEL** Lifestyle Pole Systems into your bedroom or study room is close to fuss-free. All it takes is simple steps:

Step 1:

Measure the space you would like to install the pole system and decide on how you want your pole system to look like.

Step 2:

Once you have finalised the design of the pole system, choose the accessories and parts you would like to integrate into the pole system.

Step 3:

Assemble the pole system and affix the chosen to the pole system framework.

POLE SYSTEM - 5FT

EXCEL Korean Concept Pole System - 5ft

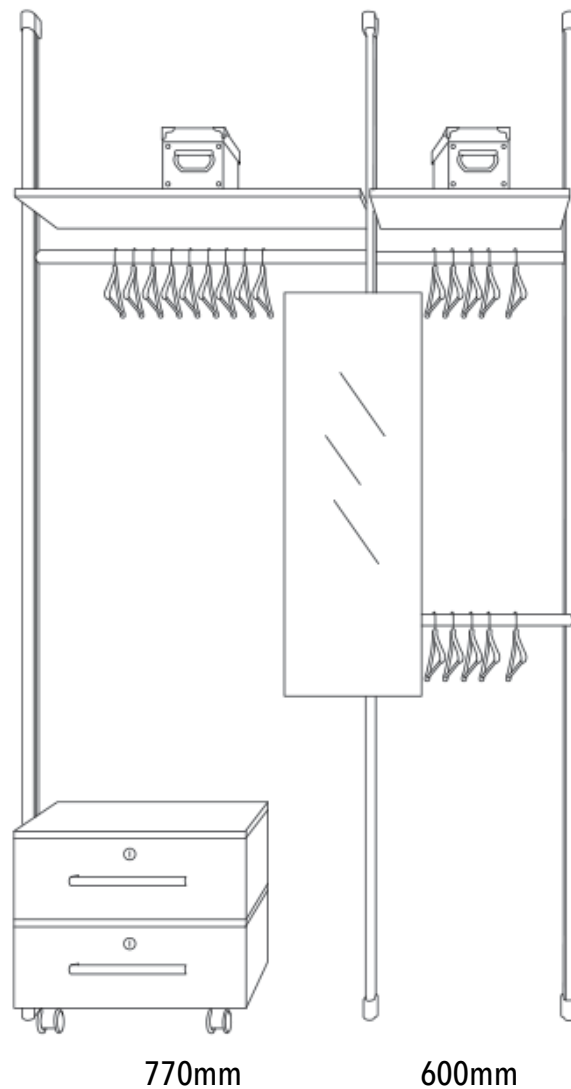

\$888.00*

The system is five feet wide. A system of poles supported on runners is stellar attraction of the product. Two spacious partitions of 600mm and 770mm can be easily created although the configuration can be perfectly customized to meet your unique needs.

You have the option of choosing one or two hanging rods in the dimension range of 400mm to 900mm. The shelves that can be opted for within the pole architecture are available in two variables, each of the size in the range of 450mm to 900mm. This holds true for the drawer cabinets that can be placed with the pole grid.

You have the option of having one or two drawers placed in the system. Each drawer is of the standard size of 600mm. The drawers are wheel mounted to ensure that they can be drawn and pulled back smoothly without creating noise.

You are also offered an eclectic range of colours to choose from. There are five colour variants available to you. You can opt from glossy white, glossy black, beech, oak, and walnut. Each colour is tastefully picked to give you a feel of the proximity to nature. The earthly feel would evoke memories of communing with nature from the comforts of your room. Despite offers loads of space, the price for the architecture has been kept very competitive at only S\$888. The poles are made up of high quality industry grade steel. Prior to commissioning for your use, the structure has been subjected to rigorous testing in stringent factory conditions to ensure that it lives up to your expectations and continue to serve month on month.

POLE SYSTEM - LSHAPE

EXCEL Korean Concept Pole System - L Shape

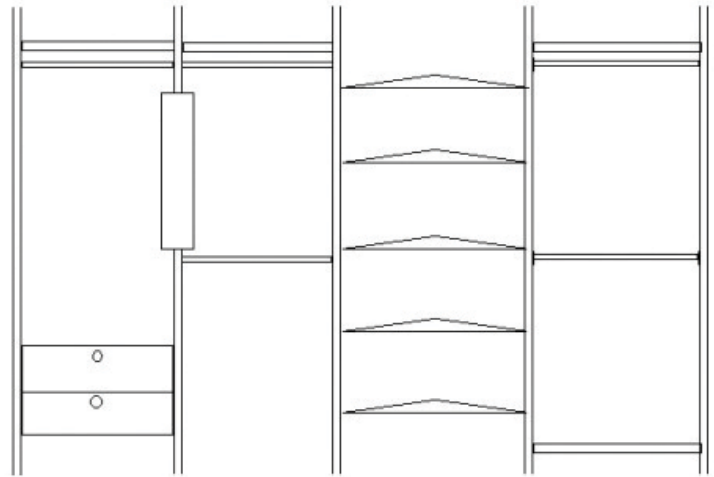

\$3000.00*

The stellar pole system designed from eclectic Korean concepts of space optimization is a worthy asset for both residential and commercial locations. The architecture has been structured in L shape for ease of access and fostering convenience of storage. Enhancing productivity through innovative designing is the underlying theme. At the central point where the left and right arms of the system converges, a pole with circular shelves running around its circumference has been provided for improved utility, space management and aesthetics.

Colours of the pedestal shelf as well the drawers has variegated hues; prominent among them being glossy white, glossy black, beech, oak, and walnut. You can exercise your discretion to choose from differently themed colours. You can exercise your options regarding the dimensions of shelf, drawers, and hanging rods. The structural integrity of the poles has been established through a series of stringent tests carried out in simulated factory conditions. Superior quality steel of industry grade is used for construction of poles so that they can last a lifetime without giving any hassles. The load bearing capacity of the poles has been rated after such intensive tests.

You can own a fully functional and space optimized pole system for just S\$ 3000. The space between poles can be configured in customized manner to meet your exact needs. The agility offered can be maximized with the integration of differently dimensioned elements within the structure. The optimal height of the pole renders it compatible with rooms of different sizes. The brilliance of

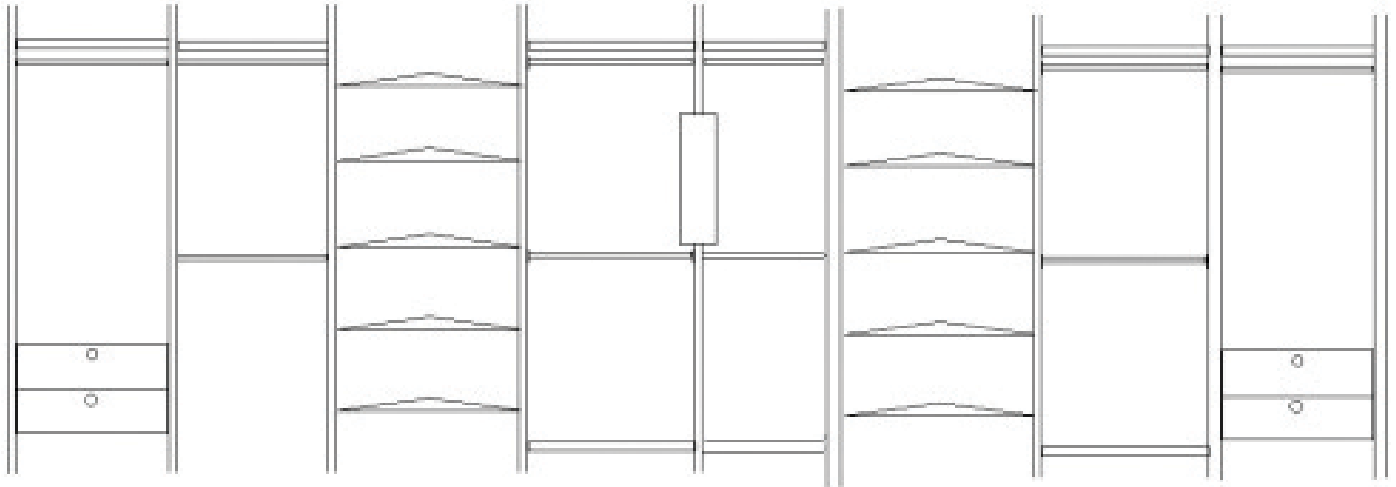

Korean architecture is evident from the flexibility offered without compromising on space. Installation of the pole system is easy and can be accomplished in rapid manner. Instruction manual is available with the system which depicts comprehensive procedures for setting the structure in place. The brand assurance of **EXCEL** speaks for the reliability of the pole system.

POLE SYSTEM - USHAPE

EXCEL Korean Concept Pole System - U Shape

\$5000.00*

The U shaped pole structure can step up the productivity of your warehouse by multiple notches. Inspired by the best in engineering designs of Korea, this eclectic pole system offers loads of customizable space. Strategic additions of cabinets, shelves and rods allow for optimization to streamline goods storage, access, retrieval and movement. At each corner of the U shaped structure, beneath the rack layer running all along the shape, a series of quadrant shaped shelves are stacked parallel to the ground. This leaves no scope for any space wastage.

Colours of the pedestal shelf as well the drawers has variegated hues; prominent among them being glossy white, glossy black, beech, oak, and walnut. You can exercise your discretion to choose from differently themed colours. You can exercise your options regarding the dimensions of shelf, drawers, and hanging rods. The structural integrity of the poles has been established through a series of stringent tests carried out in simulated factory conditions. Superior quality steel of industry grade is used for construction of poles so that they can last a lifetime without giving any hassles. The load bearing capacity of the poles has been rated after such intensive tests only.

The spacious pole system is available for a very competitive price of S\$5000 only. The height of the pole is optimal which renders it compatible with warehouses of different sizes. You can get maximum return on investment by installing this unique pole system. The complete shape has a unique appeal which takes workplace safety and productivity to newer heights. Sufficient space has been provided all round the structure to ensure that workers can stack items and retrieve the same with ease without being trapped in any unsafe condition.
