

## CONNECTION INSTRUCTIONS

- 1) Switch BeatBlock On.
- 2) In your device's menu, make sure Bluetooth is turned on and searching for other devices.  
(Note: your device must be Bluetooth enabled)
- 3) On BeatBlock, hold down the "Bluetooth connection" button for about 10 seconds or until the red and blue lights on the front of the speaker start blinking.
- 4) BeatBlock should now be visible on your device, select "BeatBlock" from the list.
- 5) BeatBlock will beep once and the LED light on the front of the unit will flash blue repeatedly to indicate successful connection.
- 6) BeatBlock is now connected with your device and is ready to play your media.
