

**FILLITE****GHS Safety Data Sheet**

According to OSHA HCS/HazCom 2012 and 29 CFR 1910.1200

**SECTION 1: Identification of the substance/mixture and of the company/undertaking****1.1. Product identifier**

Identification of the substance/mixture: FILLITE  
CAS Number: 93924-19-7 / 68131-74-8  
EC number: 300-212-6 / 268-627-4

**1.2. Relevant identified uses of the substance or mixture and uses advised against**

This material should only be used for industrial purposes.  
Filler

**1.3. Details of the supplier of the safety data sheet**

Manufacturer/Supplier: TOLSA Group  
Address: Núñez de Balboa, 51  
E-28001 MADRID - Spain  
Telephone: (00 34) 91 322 01 00  
Fax: (00 34) 91 322 01 01  
E-mail: [reach@tolsa.com](mailto:reach@tolsa.com)  
**1.4. Emergency telephone number** (00 1) 678 957 08 86 (TOLSA USA Inc.)

**SECTION 2: Hazards identification****2.1. Classification of the substance or mixture*****Classification according to 29 CFR 1910.1200 Appendix A and B***

Substance/mixture is not classified as dangerous according to 29 CFR 1910.1200 Appendix A and B

***Classification according to GHS***

Substance/mixture is not classified as hazardous according to GHS

**2.2. Label Elements*****Labelling according to 29 CFR 1910.1200 Appendix C***

Substance/mixture is not classified as dangerous

***Labelling according to GHS***

Substance/mixture is not classified as hazardous

**2.3. Other hazards**

This product may generate dust during handling and use. This product may contain quartz (crystalline silica). Long term overexposure to crystalline silica dust may cause silicosis.

**FILLITE**

**GHS Safety Data Sheet**

According to OSHA HCS/HazCom 2012 and 29 CFR 1910.1200

**SECTION 3: Composition/information on ingredients**

**3.1. Substance/preparation**

This product may contain crystalline silica in quantity up to 1.5%.

**SECTION 4: First aid measures**

**4.1. Description of necessary first aid measures**

In case of inhalation :	Allow resting in a well-ventilated area if high concentration is inhaled and mechanical irritation or discomfort occurs. Seek medical attention if irritation persists.
In case of contact with skin :	Wash with mild soap and water and rinse with plenty of water.
IF IN EYES:	Rinse with plenty of water. Seek medical advice if irritation persists..
In case of ingestion:	Symptomatic treatment and seek medical advice in case of prolonged discomfort.
Individual protection of the person providing first aid :	No information available.

**4.2. Most important symptoms and effects, both acute and delayed**

Most important symptoms and effects, both acute and delayed : Mechanical Irritation.

**4.3. Indication of any immediate medical attention and special treatment needed**

Indication of any immediate medical attention and special treatment needed : No information available.

**SECTION 5: Firefighting measures**

**5.1. Extinguishing Media**

Suitable extinguishing media:	Water spray, carbon dioxide, dry chemical powder or appropriate foam.
Unsuitable extinguishing media:	For safety reasons do not use full water jet.

**5.2. Special hazards arising from the substance or mixture**

Special hazards arising from the substance or mixture: None special

**5.3. Advice for firefighters**

Protective equipment and actions: No special requirements.  
Do not allow spillage of fire will be poured into drains or watercourses.

# FILLITE

## GHS Safety Data Sheet

According to OSHA HCS/HazCom 2012 and 29 CFR 1910.1200

### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel:	Avoid dust formation Avoid breathing dust and contact with eyes Use respiratory protection if high dust conditions, chemical resistant gloves and safety glasses
------------------------------	--

For emergency responders:	None special
---------------------------	--------------

#### 6.2. Environmental precautions

Environmental precautions:	Do not discharge into any drains, surface waters or groundwaters.
----------------------------	---

#### 6.3. Methods and material for containment and cleaning up

Methods and material for containment and cleaning up:	Scoop up or vacuum soil spillages, if appropriated, use gentle water spray to wet down Ventilate area and wash spill site after material pickup is complete. Place in a closed container prior to disposal. Dispose of in accordance with current laws and regulations.
---	---

#### 6.4. Reference to other sections

Reference to other sections :	No information available.
-------------------------------	---------------------------

### SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Recommendations:	Avoid contact with the eyes, skin and clothing. Wear protective clothing and use glasses.
Advice on general occupational hygiene:	Provide suitable air extraction ventilation in the work areas. Observe the rules of hygiene and safety at work.
Other information:	Keep only in the original container.

#### 7.2. Conditions for safe storage, including any incompatibilities

Conditions for safe storage, including any incompatibilities:	Store in dry area Keep away from incompatible materials (see section of incompatibility). Do not store this material near food or drinking water. To be stored in tightly sealed and preferably full containers in cool, dry and ventilated area.
---	--

#### 7.3. Specific end use(s)

Specific end use(s):	None.
----------------------	-------

# FILLITE

## GHS Safety Data Sheet

According to OSHA HCS/HazCom 2012 and 29 CFR 1910.1200

### SECTION 8: Exposure controls/personal protection

#### 8.1. Control parameters

TWA (8h) 10 mg/m<sup>3</sup> (inhalable); 4 mg/m<sup>3</sup> (respirable)  
Respect regulatory provisions for dust (inhalable and respirable)

#### 8.2. Exposure controls

Appropriate engineering controls :	General ventilation. Local exhaust ventilation is recommended to keep airborne dust levels below exposure limits
Individual protection measures, such as personal protective equipment :	
Eye/face protection:	Chemical safety goggles are recommended. Wash contaminated goggles before reuse.
Skin protection :	Light protective clothing recommended. Wash contaminated clothing before reuse.
Hand protection:	Avoid inhalation and contact with skin and eyes. Compatible chemical-resistant gloves are recommended. Wash contaminated gloves before reuse.
Other:	Measures should be taken to prevent materials from being splashed into the eyes or on the skin.
Respiratory protection:	Wear eyeslids and protective clothing. Use air-purifying dust respirator if airborne dust concentration is above exposure limits.
Thermal hazards :	In the case of brief exposure, use a device filter. No information available.

### SECTION 9: Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

Appearance:	Solid, fine particle powder of grey, off-white or grey/brown colour
Odour:	A slight earthy odor may be present
pH :	8.0 ± 1.0 (50% water)
Melting point:	1,200 – 1400 °C
Boiling Point :	No information available.
Flash Point:	Not applicable
Evaporation Rate :	No information available.
Flammability (solid, gas) :	No information available.
Upper/lower flammability or explosive limits :	No information available
Lower and upper explosive (flammable) limits :	No information available
Vapor pressure at 20°C :	No information available.
Vapor density :	No information available.
Relative density:	0.65 – 0.90 g/cm <sup>3</sup>
Solubility(ies) :	Insoluble in water.
Partition coefficient: n-octanol/water :	No information available.
Auto-ignition temperature :	No information available.
Decomposition temperature :	No information available.
Viscosity :	No information available.

#### 9.2. Other information

Other information : No information available.

**FILLITE**

**GHS Safety Data Sheet**

According to OSHA HCS/HazCom 2012 and 29 CFR 1910.1200

**SECTION 10: Stability and reactivity**

**10.1. Reactivity**

Reactivity : None hazardous reactions are expected

**10.2. Chemical stability**

Chemical stability : This product is stable in normal conditions.

**10.3. Possibility of hazardous reactions**

Possibility of hazardous reactions : None hazardous reactions are expected

**10.4. Conditions to Avoid**

Conditions to Avoid: No special requirements.

**10.5. Incompatible materials**

Incompatible materials: None known

**10.6. Hazardous decomposition products**

Hazardous decomposition products: None hazardous reactions or by-products are expected

**SECTION 11: Toxicological information**

**11.1. Information on toxicological effects**

Information on toxicological acute effects : May cause eye irritation if exposed to large amounts of dust  
Skin irritation may result from physical contact  
Inhalation of high concentrations may cause irritation

Information on toxicological chronical effects : This product may contain quartz (crystalline silica). In 1997, IARC concluded that the respirable fraction of crystalline silica inhaled from occupational sources can cause lung cancer in humans. However, it pointed out that not all industrial circumstances, nor all crystalline silica types, were to be incriminated (IARC Monographs, Vol 68)

In June 2003, the EU Scientific Committee on Occupational Exposure Limits (SCOEL) concluded that the main effect in humans of the inhalation of respirable crystalline silica dust is silicosis. "There is sufficient information to conclude that the relative risk of lung cancer is increased in persons with silicosis. Therefore preventing the onset of silicosis will also reduce the cancer risk...". (SCOEL SUM Doc 94-final, July 2003)

Other relevant information : No mutagenic, teratogenic or developmental toxicity effects are known

There is body of evidence supporting the fact that increased cancer risk would be limited to people already suffering from silicosis. According to the current state of the art, worker protection against silicosis can be consistently assured by respecting the existing regulatory occupational exposure limits.

**FILLITE**

**GHS Safety Data Sheet**

According to OSHA HCS/HazCom 2012 and 29 CFR 1910.1200

**SECTION 12: Ecological information**

**12.1. Toxicity**

Toxicity : No specific adverse effects are known

**12.2. Persistence and degradability**

Persistence and degradability : No information available.

**12.3. Bioaccumulative potential**

Bioaccumulative potential : No information available.

**12.4. Soil mobility**

Soil mobility : No information available.

**12.5. Results of PBT and vPvB assessment**

Results of PBT and vPvB assessment : No information available.

**12.6. Other adverse effects**

Other adverse effects: See also Sections 6, 7, 13 and 15  
Avoid contamination of soil, groundwater and surface water.

**SECTION 13: Disposal considerations**

**13.1. Waste treatment methods**

Waste treatment containers : Dispose in a safe manner in accordance with local/national regulations.

Appropriate methods of waste treatment of both substance or mixtures : Dispose in a safe manner in accordance with local/national regulations

Appropriate methods of waste treatment of contaminated packaging : Dispose in a safe manner in accordance with local/national regulations.

Wastewater discharge : No information available.

Community/national/regional provisions relating to waste : No information available.

**SECTION 14: Transport information**

**14.1. Land Transport (ADR/RID)**

Substance/mixture is not classified as hazardous for transport

**14.2. Sea Transport (IMDG)**

Substance/mixture is not classified as hazardous for transport

**14.3. Air Transport (IATA)**

Substance/mixture is not classified as hazardous for transport

## GHS Safety Data Sheet

According to OSHA HCS/HazCom 2012 and 29 CFR 1910.1200

### SECTION 15: Regulatory information

**15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture**

Other : No information available.  
 Authorisations : No information available.  
 Usage: : No information available.

**15.2. Chemical Safety Assessment**

Chemical Safety Assessment : No information available.

### SECTION 16: Other information

Substance/mixture is not classified as dangerous according to 29 CFR 1910.1200 Appendix A and B

Substance/mixture is not classified as hazardous according to GHS
