**Premium Winterized BHO
Handmade in Hood River,
Oregon**

We source our material fresh weekly from the highest quality farms only. We have a variety of strains, yet we strive to create consistency of form, each package contains an expertly hand crafted one gram shatter coin.

Because shatter is the only product we make, we are able to put 100% of our focus and effort into creating the best process that is repeatable every time.

Since 2014, we have served a small number of retailers across Oregon. Our commitment to quality has kept yields and availability low. We are excited to announce that recent expansions at Alpine Extracts will allow us to distribute our product to a limited number of additional stores.

Currently we have 9 strain choices, each at \$12.50/gram.
