

LEE SPECIALTY SEALS | PRODUCT INFORMATION

		
	PRODUCT NAME:	TFE/P
	PART NUMBER:	ORA_-----
	CATEGORY:	O-RINGS
	SUB_CATEGORY:	TFE/P

QUICK DESCRIPTION:	Tetrafluoroethylene-Propylene materials exhibit excellent thermal and chemical resistance including hot water, steam, acids, alkaline solutions, ammonia, amines, brake fluids and sour gas. Also referred to as Aflas®.
MAIN FEATURES:	<ul style="list-style-type: none"> -good high temperature capability -used in numerous oilfield applications -available in 80 and 90 durometer -available in metric and imperial sizing
TECH SPECS:	<ul style="list-style-type: none"> -temperature range -9°C (-16°F) to 232°C (450°F) -suitable with methanol, amines, H₂S (10%), steam and brake fluid
ACCESSORIES & NOTES:	Low temperature may restrict sealing abilities
