

Whole House Testimonials

I recommend the Aquaspace Whole Home Filter as we now are in our sixth year and can truly say it was one of the best purchases I have made for my home.

My wife kept nagging me to purchase the Aquaspace Whole House Water Filter after her doctor recommend we get one. I can honestly say she was right about this!

I had not realized that the primary exposure to the VOC's in the water was thru the air we breathed in the home. This is why we purchased our Whole Home unit. I wish I learned that fact earlier because I did never realize how wonderful it was to have my Whole Home unit.

I have been using the Aquaspace Whole House filter in my home for 15 years now and plan on purchasing another one when I move to a new home next month... I would be lost without it!

My wife and I purchased the Whole Home filter after we stayed at a friend's home while on our vacation and noticed the water seemed very fresh. They showed us their Aquaspace whole house system. We now realized what we were missing for our home as soon as it was installed. I highly recommend this product for everyone city water!

It is truly a pleasure to be able to get a chemical-free, and great tasting water from any faucet in our home, to feel the clean water during shower, and bathing (my hair is a lot healthier, too - no more split ends).

I had hard time breathing while taking a shower due to the chemicals in the water. Unfiltered water seriously made my stomach cramp and sick. My doctor recommended that I use a Whole Home System. My husband and I looked around and decided on the Aquaspace and it is definitely the way to go!!
