## HORSE HEALTH

### Leading Veterinary Equine Supplements

## Synovium<sup>®</sup> Motion JMT

THE NO.1 VETERINARY JOINT SUPPLEMENT FOR HORSES.....

Motion JMT contains the highest daily amount of the three most important ingredients for joint care.

Our veterinary developed joint supplement is based on the latest scientific research which shows the need for at least 15g of Glucosamine, 10g MSM & 2.4g Chondroitin.

Best for supporting optimal mobility and performance, containing the three most effective ingredients in joint health.

Motion JMT contains the correct levels of active ingredients per daily scoop, so unlike other joint supplements on the market Synovium guarantees to make a difference to your horse.

Scientific evidence has shown the benefits of feeding Glucosamine combined with Chondroitin for maximum effectiveness compared to feeding individually.

### Composition

**Glucosamine sulfate** 298 g / kg (15g per daily dose)

**Methylsulfonylmethane (MSM)** 199 g / kg (10g per daily dose)

**Chondroitin sulfate** 48 g / kg (2.4g per daily dose)
