Leading Veterinary Equine Supplements

Synovium[®] PREFIT

Balanced essential vitamins and minerals for horses.

Prefit can be used in periods of intensive training and if extra attention is required for maintaining good resistance, for example during transport.

Prefit contains a balanced composition with high-quality vitamins, minerals, trace elements and Biotin to make your horse feel optimally fit and energised.

This supplement can be used to replace a lack of vitamins in forage and to boost the immune system.

Developed to use during heavy training, competition, transport, seasonal changes and after illness. Gives natural energy without making fizzy.

Provides a good source of Biotin for horses to maintain healthy hooves.

Composition

Nutritional additives (per kg)

Vitamin A 900,000 IU	Biotin 5 mg
