Skin Concern	Flakiness, Dryness, Dehydration and Breakouts
pH	1.8

## BLUEBERRY SMOOTHIE PEEL PROFILE

This body peel contain a combination of Glycolic (20%) and Lactic (10%) acids. These work together to exfoliate and resurface smoother and healthy looking skin.

Pregnancy  
safe

Nut oil  
free

Vegan

This peel contains the natural moisture active, Pentavitin which provides instant, deep hydration by generating a moisture reservoir that lasts for 72 hours from the final application. Otherwise known as Saccharide Isomerate, this 100% naturally-derived plant extract improves the skin's protection against dehydration and sensitivity. It does this by binding deep within the outer layers of skin, meaning skin hydration continues long after application.

## HOW TO JUICE

- For a full body exfoliation, dispense 20ml into a small bowl. Massage onto the skin and leave for for 5 mins before warm compressing to remove.
