

DRENCH

Hydrating Oil Cleanser

Drench is a hydrating oil cleanser that deeply cleanses the skin leaving a youthful glow. Nourishing plant oils adhere to and remove impurities and makeup and leave skin soft and dewy.

Suitable for:

Dry skin types.

Targets:

Dehydration and signs of ageing.

Smells like...

Sweet and comforting aromas from ylang ylang and lavender flowers

Feels like...

A silky nurturing oil.

Why we love it:

Deeply cleanses

Nourishes

Plumps

Hydrates

Provides a dewy glow

Pregnancy + breastfeeding safe

Vegan

How to Juice:

Home:

Step 1 at night when using the Skin Juice Daily Diet.

- Massage 1 pump onto a dry face with dry hands. Wet fingers and continue to massage. Aid removal with a face cloth or Smudge Budger microfibre cloth if required.

Professional:

- This is the second cleanse step in a facial process for dry or dehydrated skin types.

Retail talking points:

- Removes stubborn makeup – including eyes and lips.
- No need to double cleanse – one cleanser that does it all.
- A gentle cleanser that will leave the skin feeling dewy, plump and fresh.
- A luxurious cleansing experience – the aroma, the feel on the skin etc – provides that 'aaah' feeling and is a great way to unwind at the end of the day and prepare your skin for your nightly skincare routine.
- Contains 100% natural and pure plant oils – no PEGs or synthetics to strip or coat the skin.

About this squeeze:

Deep cleansing:

- This oil cleanser removes make-up, including waterproof mascara and long-wear lipstick. Not suitable to use with false lashes.
- Works by using a healthy oil exchange. Oil attracts oil, and therefore cleansing with purifying, nutritious plant oils helps to dissolve blockages, removes dirt and debris and replaces the oxidised oils and pollution from the day.
- Deeply cleanses blocked pores, without irritating or drying the skin, leaving it soft, dewy and fresh.

Nourishes and protects:

- The skin's barrier function can be compromised during cleansing; however, the natural oils in this cleanser help rebuild the skin's barrier to protect hydration and moisture levels.
- Macadamia oil is rich in palmitoleic acid which is found naturally in the skin but decreases as we age. Feeding the skin this essential fatty acid helps to reinforce the skin's protective barrier function and protect against irritation, dryness, dehydration and the damaging effects of pollution.

Supports skin against signs of ageing:

- Feeds the skin antioxidants and helps protect the skin and combat free radical damage.
- Removes polluted oils and replaces them with fresh lipid rich biocompatible plant oils to help restore healthy barrier function, as well as maintaining a soft, dewy and youthful glow.

In the Blender:

Sunflower Seed Oil

Lightweight oil that dissolves oily blockages while softening and hydrating the skin.

Macadamia Seed Oil

Restorative, skin strengthening oil that helps protect cell membranes against environmental damage and irritation.

Apricot Kernel Oil

Soothing oil that assists in the skin's healing process and calms irritation.

Organic Olive Fruit Oil

Nourishing oil, rich in squalene to help hydrate the skin and protect it against premature ageing and sun damage.

Ylang Ylang Flower Oil

Extracted from flowers, this essential oil helps to stimulate the development of healthy cells while preserving a youthful glow.

Cape Lavender Flower Oil

Essential oil possessing medicinal properties, helping the skin's rejuvenation and regeneration processes.

Organic Carrot Seed Extract

Essential oil rich in skin brightening and restorative vitamins A and C.

Organic Calendula Flower Extract

Extracted from the bright orange petals, this oil has anti-inflammatory and antiseptic properties to aid in the skin's natural healing process and calm irritation.

Organic Arnica Flower Extract

Extracted from a yellow flower related to the sunflower. It has powerful anti-inflammatory qualities to help soften, hydrate and soothe damaged skin.

See [wholesale site](#) for the full ingredient list.

Banned from the Blender

Polyethylene glycol (PEGs), silicones, artificial colours, artificial fragrances, mineral oil, parabens, phenoxyethanol, drying alcohols.
