

# JUICE BAR TRADE MANUAL

SKIN JUICE.

# A PROFESSIONAL RANGE JUST FOR YOU

---

Juice Bar is a collection of trade only products created by Skin Juice for your salon's back bar that allows you to create delicious skin care solutions for your client's needs.

A Skin Juice treatment is like a degustation for the skin. A skin nourishing story told by igniting the senses. A progressive dinner of tantalising skincare, cleansing, quenching, warming, soothing and satisfying your skin.

An experience crafted and served by your expert Juicy Mixologist hands and touch.

You have the technique. Juice Bar provides the tools.

Our unique Juice Bar formulations provide the strength you need from a professional product, without compromising on the quality organic and nutraceutical ingredients you expect from Skin Juice.

## NUTRA PEELS

### Exfoliants used in the Skin Juice Peel

- Plum Berry Peel
- Pumpkin Peel

Nutra Peels are dual action products that simultaneously exfoliate and treat the skin. They exfoliate the skin using a combination of natural alpha hydroxy (AHA) and beta hydroxy (BHA) acids.

After exfoliation these nutritious peels then feed the skin a blend of natural cosmeceutical actives and superfoods to help stimulate healthy cell renewal.

---

## MASKS

- Infusive Peel Mask

# PLUM BERRY NUTRA PEEL TECH SHEET

---

Skin Type	Sensitive, also pregnancy-safe
Skin Concern	Dehydration, Irritation, Inflammation
pH	3.5 – 4.0

## PLUM BERRY NUTRA PEEL PROFILE

### EXFOLIATING

- Lactic acid gently exfoliates and moisturises the skin with little irritation.
- Malic acid, from apples, smooths and brightens the skin.
- Contains papaya and pineapple to remove dead skin cells while regenerating healthy skin.
- Mandelic acid has a larger molecule size and penetrates and skin more slowly, making this a gentle exfoliator for sensitivity.

Pregnancy  
safe

Vegan

## HYDRATING / CALMING / EXFOLIANT

- After exfoliation, the natural active tazman pepper soothes and calms reactive skin. It reduces inflammation, itching and the appearance of skin redness. This native berry has four times the antioxidants of blueberries.
- Plant derived pentavitin, a polysaccharide, creates a moisture barrier on the skin, that provides instant hydration for up to 72 hours.
- Natural active Scavenox is a concentrate from green tea and acts as a potent antioxidant alongside blueberry and cranberry extracts to protect healthy skin cells from free radical damage.
- Marimoist is the aloe from the ocean and has been proven to function as a water "attractor" and an excellent delivery system for water to the skin.

## HOW TO JUICE

Dispense 2ml (approx 6 pumps) of Plum Berry Peel into a small bowl. You may like to protect the eyes with damp cotton pads. Apply peel to the face using fingers, starting with the t-zone, jawline, sides of the face then finishing with the cheeks. Continue down the neck to the décolletage if required. Avoiding the eye and lip area.

- Let the client know that the peel might tingle, but to alert you if it becomes uncomfortable. Remove if this is the case.
- Do not leave your client while the peel is on.
- Leave Plum Berry Peel on the skin for 1 - 5 mins.

## KEY INGREDIENTS

**LACTIC ACID – 23%**  
EXFOLIATING FRUIT ACID

**MANDELIC ACID – 1%**  
EXFOLIATING FRUIT ACID

**PINEAPPLE + PAPAYA ENZYMES – 2%**  
EXFOLIATING ENZYMES

**MALIC ACID – 1%**  
BRIGHTENING FRUIT ACID

**SCAVENOX**  
ANTI-INFLAMMATORY ANTIOXIDANT

**PENTAVITIN**  
HYDRATING POLYSACCHARIDE

**TAZMAN PEPPER**  
SOOTHING ANTIOXIDANT

**MARIMOIST**  
MOISTURISING POLYSACCHARIDE

# PUMPKIN NUTRA PEEL TECH SHEET

---

Skin Type	Dry skin
Skin Concern	Ageing, Dullness, Pigmentation
pH	3.5 – 4.0

## PUMPKIN NUTRA PEEL PROFILE

### EXFOLIATING

- Lactic acid gently exfoliates and moisturises the skin.
- Malic acid, from apples, smoothes and brightens the skin.
- Contains papaya, pineapple and pomegranate enzymes to remove dead skin cells and helps to gently resurface epidermal pigmentation.

- Glycolic and mandelic acid help to accelerate cell turnover by dissolving the tiny bonds that hold skin cells together, helping to remove dead skin on the surface of the skin that can lead to pigmentation, dull complexions, as well as fine lines.

### **HYDRATING / CALMING / EXFOLIANT**

- Trealix, from hydrolyzed vegetable proteins, is a protecting and moisturising agent that mimics the composition of Natural Moisturising Factors (NMF) to restore and increase hydration.
- Trealix is enriched with amino acids, and will help stimulate the synthesis of healthy collagen.
- SymCare O, made from concentrated compounds from chamomile, grapeseed and ginger root, helps strengthen the skin's barrier while soothing irritation and inflammation.
- Vit-A-Like is a botanical form of retinol and is tolerated better by sensitive skin. It offers stimulation of cellular renewal and collagen and is clinically proven in anti-wrinkle efficacy without any skin sensitivity.
- Marimoist is the aloe form from the ocean and has been proven to function as a water "attractor" and an excellent delivery system for water to the skin.
- Seabuckthorn oil is a rich source of Omega 7 essential fatty acids, which deplete as we age. This EFA will help protect the cellular membrane to prevent the spread of damage.
- Pumpkin seed extract is a hydrolyzed protein fraction. This ingredient helps to stimulate the synthesis of collagen by inhibiting the activity of enzymes which contribute to its degradation.

## HOW TO JUICE

Dispense 2ml (approx 6 pumps) of Pumpkin Peel into a small bowl. You may like to protect the eyes with damp cotton pads. Apply peel to the face using fingers, starting with the t-zone, jawline, sides of the face then finishing with the cheeks. Continue down the neck to the décolletage if required. Avoiding the eye and lip area.

- Let the client know that the peel might tingle, but to alert you if it becomes uncomfortable. Remove if this is the case.
- Do not leave your client while the peel is on.
- Leave Pumpkin Peel on the skin for 1 - 5mins.

## KEY INGREDIENTS

**LACTIC ACID – 20%**  
EXFOLIATING FRUIT ACID

**MANDELIC ACID – 4%**  
EXFOLIATING FRUIT ACID

**GLYCOLIC ACID – 1%**  
EXFOLIATING FRUIT ACID

**MALIC ACID – 1%**  
BRIGHTENING FRUIT ACID

MOISTURISING POLYSACCHARIDE

**POMEGRANATE ENZYME – 4%**  
EXFOLIATING ENZYME

**PUMPKIN EXTRACT – 3%**  
REGENERATIVE ENZYME

**TREALIX**  
HYDRATING POLYSACCHARIDE

**VIT-A-LIKE**  
REGENERATIVE VITAMIN

**SEA BUCKTHORN OIL**  
PROTECTIVE OMEGA 7 + ANTIOXIDANT

**SYMCARE O**  
MOISTURISING + SOOTHING MINERALS

# INFUSIVE PEEL TECH SHEET

---

<b>Skin Type</b>	All
<b>Skin Concern</b>	Dehydrated, Sensitive, Irritated, Ageing, Stressed

## INFUSIVE PEEL PROFILE

Alginate contains natural polysaccharides from seaweed, which locks in moisture and plumps the appearance of ageing.

This cooling mask sets on the skin, sealing in moisture, helping to constrict the capillary action, calming and soothing sensitivity and reducing redness.

Antioxidant rich raspberry, pomegranate, beetroot and vitamin C are deeply infused into the skin.

Pregnancy  
safe

Nut oil  
free

## HOW TO JUICE

- The Infusive Peel Mask is used in all of Skin Juice's Nutra Peel Treatments and must be performed in accordance with Skin Juice's set treatment protocols.

## KEY INGREDIENTS

**ALGINATE FROM SEAWEED**

**RASPBERRY**

**POMEGRANATE**

**BEETROOT**

# TROUBLE SHOOTING

---

## INFUSIVE PEEL MASK PREPARATION

- We recommend mixing 4 scoops of the Infusive peel with 100 – 130ml of room temperature water. Never use hot or cold water.
- The amount of water required when mixing the Infusive Peel mask will change slightly depending on the environment. For example: humidity = less water with longer drying time, and dryness = more water with less drying time.

## INFUSIVE PEEL MASK APPLICATION

- Ensure fans and air conditioner are switched off during the application.
- Leave a thickened edge to aid effective removal.

## MAINTAINING THE FRESHNESS OF YOUR SKIN JUICE PRODUCTS

- Only use spatulas or scoops to dispense products - never use fingers or mask brushes as these will introduce bacteria to the product.
- Keep products closed at all times to reduce air and water contamination.
- Store products in a cool space and never in direct sunlight or near heated equipment.

## PREGNANT CLIENTS

- Always elevate pregnant client's head slightly so they aren't lying flat when on their back.
- Help clients up and allow them to sit on the edge of the bed before standing.
- Tuck a rolled towel under their knees when lying on their back, to relieve pressure on the lower back.
