

CUSTOM BLEND MASK BASE

Skin Type	All Skin Types
Skin Concern	Customised to suit

MASK BASE PROFILE

Avocado oil and plant butters are blended together to create the perfect mask base for the addition of your Juice Shots and Aromas.

This mask base helps to support the skin's natural protective role and contains natural plant based ingredient enhancers to ensure your Juice Shots are absorbed by the skin.

AIDS ACTIVE INGREDIENT DELIVERY

- Avocado contains lecithin which aids the delivery of active ingredients in Juice Shots.

Pregnancy
safe

Nut oil
free

BARRIER REPAIR

- Mango, shea and cocoa butters are rich in plant sterols, which are healthy plant fats that are essential to the skin. They restore the healthy lipid layer needed to protect the skin from irritation and dehydration.
- Beeswax is high in Vitamin A and supports cell reconstruction and health.

DETOXIFYING

- Natural white clay gently cleanses and absorbs pollutants, chemicals, bacteria, excess oils and other impurities.

HOW TO JUICE

- For the face, add 3 x large scoops or 60ml of the Mask Base into your mixer bowl, followed by the relevant Juice Shots and mix well. See our My Juice Blend Facial Mask Recipes to create the best mix for your client's skin.
