Supercharged Serum

Natural + Australian Made + Vegan + No Animal Testing + Green Chemistry

Pigmentation Blur contains 5 potent actives that are clinically proven to reduce and prevent pigmentation by targeting the three key causes; 🔥 inflammation, ☀️ sun exposure and 🧬 hormonal activity. This powerful and natural formula helps reduce post inflammatory pigmentation, while papain enzymes gently exfoliate to brighten a dull, uneven skin tone.

To use shake serum before use. Apply 💧💧💧 to a clean face AM and PM. Target additional skin deficiencies by layering with more serums from the Factory. It's not recommended to mix serums from different ranges.

Key Actives in depth

AXOLIGHT: inhibits melanogenesis targeting tyrosinase and tyrosinase-related protein-1.

BRIGHTENYL: is a S.M.A.R.T. (Skin-Melanin-Active-Removal-Technology) ingredient. Targets several biological pathways, addressing all the different causes of uneven skin tone, redness and pigmentation issues simultaneously.

UNILUCENT PA-13: lightens dark spots + brightens and evens skin tone by decreasing melanin synthesis by inhibiting tyrosinase, an enzyme involved in the transfer from melanocytes to keratinocytes.

WAKAMINE XP: inhibits tyrosinase to limit melanin production and lighten the skin.

FUCOCERT: relieves the spread of inflammation and allergic reactions; increases hydration by 44% one hour after application.

This formula has been boosted with nutrients from Papain Enzyme, Mandarin, Turmeric and Seabuckthorn.

Super Actives 15% Encapsulated

AXOLIGHT: Powerful skin lightener

BRIGHTENYL: Skin brightening + colour correcting active

UNILUCENT PA-13: Depigmenting agent

WAKAMINE XP: Skin lightening active

FUCOCERT: Anti-inflammatory

These clinically proven plant powered super actives are encapsulated into a unique liposome structure which allows them to penetrate deeply to power cells and target specific skin concerns.

Superfoods

PAPAIN ENZYME: Exfoliating

MANDARIN: Soothing

TURMERIC: Anti-inflammatory

SEABUCKTHORN: Cellular Support

These superfoods feed the skin natural and organic nutrition to boost its performance.
